Fiscal Year 2019 Budget Request

Including Governor's Recommendations

Coordinating Board for Higher Education

Doug Kennedy - Chair

Mike Thomson - Vice Chair

Samuel Murphey – Secretary

Carl Bolm

Joe Cornelison

Bobby Robertson

Shawn Saale

Zora Mulligan

Commissioner of Higher Education

January 22, 2018

To the Missouri General Assembly:

The Missouri Coordinating Board for Higher Education and the Department of Higher Education appreciate your support for postsecondary education and look forward to working with you as you develop your budget recommendations for FY 2019.

Higher education is essential to Missouri's economic growth and increases opportunities for citizens of all regions of our state. The budget contains requests that are critical to the short- and long-term needs of our higher education institutions.

This year's recommendations mark a significant step forward from years past. The CBHE recommends setting aside part of institutions' core budgets to be reallocated based on an updated performance funding model. The updated model is intended to reward institutions for successful performance, incentivize institutions that are close to reaching their performance funding goals to improve performance, and provide support for institutions that have consistently struggled to meet performance funding targets.

In addition, our budget includes public colleges' and universities' top priorities for capital funding projects.

We appreciate your consideration of these requests and ongoing support of higher education.

Sincerely,

A handwritten signature in black ink, reading 'Zora Mulligan'.

Zora Mulligan
Commissioner of Higher Education

ORGANIZATIONAL INFORMATION: DEPARTMENT DUTIES

The CBHE (CBHE) and its administrative arm, the Missouri Department of Higher Education (MDHE), have a varied portfolio of duties. The following provides a high-level summary of those duties.

Planning is one of the MDHE's core functions. The department is responsible for developing and overseeing implementation of a coordinated plan for higher education for the state and its subregions (§ 173.020(4)), identifying the state's higher education and workforce needs (§ 173.020(2)), and delineating each institution's areas of competence (§ 173.005.2(9)). The department reviews each public college's and university's mission periodically and has authority to approve applications from institutions seeking to establish a statewide mission (§ 173.030(8)). The department collects data to use in its decision-making processes and makes those data available in the Statistical Summary of Missouri Higher Education published on the MDHE website.

Academic program approval and review are closely linked to the department's planning function. The department reviews new degree program proposals offered by public colleges and universities (§ 173.005.2(1)) and has authority to make recommendations to institutions' governing boards regarding the development, consolidation, or elimination of programs, degree offerings, and facilities (§ 173.030(2)).

The department is also tasked with fostering **institutional relationships** that serve the state's higher education needs. Specific responsibilities in this area include encouraging the development of cooperative agreements for the offering of graduate degrees, as well as developing arrangements for more effective and economical specialization among institutions, and for more effective coordination and mutual

support among institutions in the use of facilities, faculty, and other resources (§ 173.020(3)).

The department coordinates public colleges' and universities' core operating and capital projects **budget requests** by establishing guidelines for public universities' requests (§ 173.005.2(3)), approving a community college funding model (§ 163.191.1), and submitting a unified budget request for community colleges (§ 163.191.1). Requests for operating appropriations are made based on the performance funding model the department adopted in 2012 (§ 173.1006.1).

The department also develops budget requests for and oversees the state's **student financial aid** programs, the largest of which are Access Missouri (§ 173.1103.1); the Higher Education Academic Scholarship Program, commonly referred to as "Bright Flight" (§ 173.250.3); and the A+ Scholarship Program (assigned to the department by Executive Order 10-16).

Also in the affordability category, the department administers the Higher Education Student Funding Act, commonly referred to as SB 389, which provides that a public university that increases tuition and some fees more than the rate of inflation will be subject to a fine of 5% of the institution's state appropriation (§ 173.1003.5). The law also includes a provision that allow institutions ask the commissioner of higher education for a waiver of all or part of the fine (§ 173.1003.5).

Proprietary school certification is another of the department's important responsibilities. The department licenses and oversees *for-profit* proprietary schools

like the University of Phoenix and some *not-for-profit* proprietary schools like Victory Trade School, a religiously affiliated institution in Springfield with a mission of preparing homeless individuals for work in the culinary arts (§§ 173.604.1 & 173.616.1).

Finally, the department offers resources that help students **plan for and complete** postsecondary programs. The MDHE's Journey to College programs support high school students as they apply for college admission and financial aid, and celebrate students' choices about attending college and participating in military service.

The department has a long history of working with colleges and universities to develop guidelines that promote **transfer** between institutions; a statewide library of core courses that transfer from one institution to another; and a policy fostering "reverse transfer," which allows a student who transfers from a community college before earning enough credits to receive an associate degree to be awarded an associate degree when he or she earns the remaining needed credits at the university to which they have transferred (§ 173.005.2(8)).

Senate Bill 997, a higher education omnibus bill that became law on August 28, 2016, gives the department significant additional responsibilities, many of which strengthen the department's role in promoting transfer. The department is tasked with working with an advisory committee – the majority of which must be faculty members – to develop a core curriculum that is guaranteed to transfer to another institution and a common course numbering equivalency matrix (§ 178.780.2(10)). These provisions essentially make mandatory practices that have been voluntary in the past. The new law also requires the department to evaluate and maintain data on each institution's transfer practices (§ 178.788.1) and to resolve disputes about transfer (§ 178.788.2).

Senate Bill 997 requires the department to develop programs designed to promote **on-time completion**, including "15 to Finish" (§ 173.2510) and guided pathways (§ 173.2515); to establish a pilot program for "concurrent enrollment," which allows community college students to enroll in a public university, take select university classes, and use the university's facilities (§ 173.2520); and to create a website that provides information about academic programs available at each institution, financial aid, and transfer of course credit (§ 173.035).

In addition, the new law establishes a dual credit scholarship for high school students who meet certain academic standards and demonstrate financial need. The MDHE has determined that it will cost approximately \$4.5 million to launch the scholarship program.

The department has served as the **state-designated student loan guaranty agency** in the Federal Family Education Loan Program (FFELP) since 1979, making it possible for generations of students, regardless of personal resources, to receive loans because of protection against defaults.

As a FFELP guaranty agency, the MDHE receives servicing fees from the U.S. Department of Education and retains a portion of defaulted student loan collections. These revenues are used to fund loan administration functions and other financial aid-related activities. In addition, the MDHE purchases defaulted student loans from lending institutions and is reimbursed for loan purchases by USDE (20 U.S.C. §1072a).

As Missouri's guaranty agency, the MDHE helps students and families pay for a college education by:

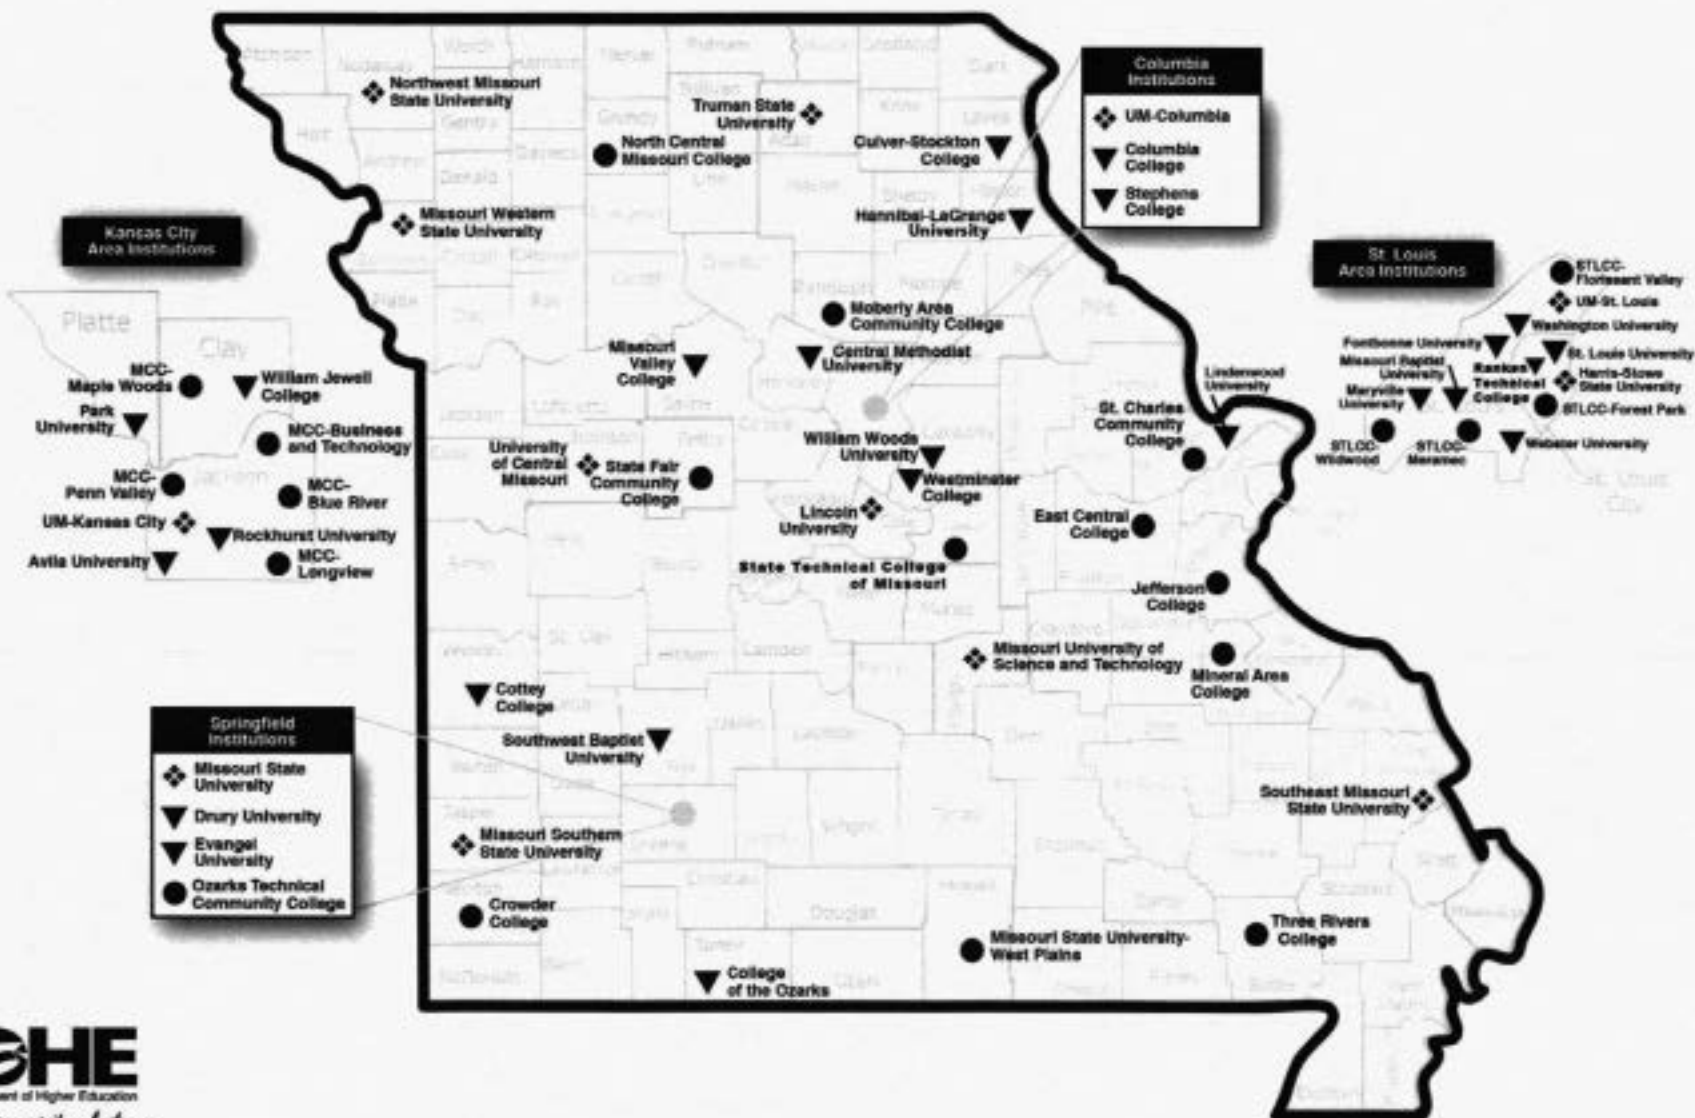

- Providing information on postsecondary opportunities and financial aid directly to students and families (20 U.S.C. § 1072b);
- Creating financial literacy materials and programs for students, families, and schools to help them better manage finances (§ 165.275); and
- Helping borrowers resolve problems repaying their loans and restore their credit if they default (20 U.S.C. § 1072b)

Missouri Public and Independent Colleges and Universities*

* Missouri also has a number of technical, professional, theological, and proprietary postsecondary institutions.

FLEXIBILITY REQUEST FORM

19

BUDGET UNIT NUMBER:	55520C	DEPARTMENT:	Higher Education
BUDGET UNIT NAME:	Coordination Administration	DIVISION:	Coordination Administration
HOUSE BILL SECTION:	3.005		

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST					GOVERNOR'S RECOMMENDATION
General Revenue	PS	18,591	5%		Provided that not more than 25% flexibility is allowed between personal service and expense & equipment, and not more than 25% flexibility is allowed between divisions within the department, and not more than 10% flexibility is allowed to reallocation of personal service and expense & equipment between executive branch departments provided that the total FTE for the state does not increase.
General Revenue	E&E	7,035	5%		
Other (Out-of-State Program Fund-0420)	PS	1,932	5%		
Other (Out-of-State Program Fund-0420)	E&E	843	5%		
Other (Guaranty Agency Funds-0880)	PS	12,199	5%		
Other (Guaranty Agency Funds-0880)	E&E	2,268	5%		
Flexibility will allow MDHE to reallocate these limited resources so they can be effectively administered to meet mandatory expenditures. Currently only five percent is allowed for flex.					

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0	\$0	\$0

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
No flexibility was used in FY17.	DHE does not anticipate using flexibility unless it is necessary to meet mandatory expenditures. Depending on whether vacancies occur, it may be necessary to flex EE to PS to pay annual leave balances to retiring employees.

7b. Provide an efficiency measure.

In June 2017, the Coordinating Board for Higher Education approved a streamlined process for reviewing academic program proposals so that institutions have the flexibility to meet workforce and student needs while also maintaining fidelity to their core missions. The new process involves a three-tiered framework - staff review (minor program changes), routine review (new programs meeting specific criteria for expedited review), and comprehensive review (unusually complex submissions meeting specific criteria that place it outside of routine review and requiring a longer, more intense review).

- Cycle time measures the level of efficiency in processing new program and program change requests at the staff and routine levels of review. For all requests at the staff and routine levels received by the first of the month, MDHE staff will typically process, review, and report decisions back to the institutions by the end of that same month. Programs reviewed at the comprehensive level are not included in this cycle time due to the complexity of the review process. Base target = 31 days; stretch target = 29 days.

Out-of-State Program Approval																										
Program is found in the following core budget(s): Coordination Administration																										
<p>1a. What strategic priority does this program address? Assure program quality of out-of-state institutions of higher education.</p> <p>1b. What does this program do? This program allows the Missouri Department of Higher Education (MDHE) to provide appropriate oversight of out-of-state public institutions offering online education to Missouri residents, as directed by 173.005.2(12)(b)b., RSMo. The number of Missouri residents enrolling in academic programs through online education has increased significantly over the past decade. Since 2012, more than 300 out-of-state public institutions have contacted the MDHE and registered their intention to offer online education to Missouri residents. However, many of those have joined the State Authorization Reciprocity Agreement (SARA) in their states, and the department currently has authorized 12 out-of-state public institutions that do not fall under SARA authorization.</p> <p>2. Out-of-State Program Approval _____	
Program is found in the following core budget(s): Coordination Administration	

7a. Provide an effectiveness measure.

Percent of initial applications meeting the standard. Out-of-state institutions' authorization to operate in Missouri is granted for one year only to ensure the quality of programs being offered. Out-of-state institutions are required to submit the following information to Academic Affairs yearly, for review and to receive authorization for the next year:

1. Good standing with their state approval agency; institutions list their state approval agency on the application and by signing the application, they are stating that they abide by MDHE policies, one of which is that they must be in good standing. **100 percent of initial applications meeting the standard.**
2. Evidence of accrediting agency certification: **100 percent of initial applications meeting the standard.**
3. The list of degree programs and projected number of Missouri residents enrolled: **100 percent of initial applications meeting the standard.**
4. Assurance from the institution that they are abiding by the CBHE Principles of Good Practice for Distance Learning and Web-based courses: **100 percent of initial applications meeting the standard.**

Forty-nine institutions were authorized during the 2016-2017 year. However, many of these institutions have joined SARA. Currently, there are 12 authorized institutions that are not members of SARA.

7b. Provide an efficiency measure. ***100 percent of approvals completed within the established timeline.***

Percent of approvals completed within the established timeline. Data to measure efficiency is based on initial contact by the out-of-state institution through time of approval, based on the following parameters:

1. Initial contact by the institution and manner of contact (i.e. letter, phone, email);
2. Date the application materials were sent from Academic Affairs to the institution (Goal was within 10 working days); 100% met.
3. Date the completed application packet was received by Academic Affairs; and
4. Date official authorization was issued (Goal was within 20 working days). 92% met goal.

2. CORE DESCRIPTION																																																																																																											
<p>This program administers 10 state student financial assistance programs that provided almost \$130 million to more than 64,600 eligible Missouri residents during FY 2017. The programs administered include: Advanced Placement Incentive Grant, Higher Education Academic Scholarship Program (Bright Flight), Access Missouri Financial Assistance Program, A+ Scholarship, Public Service Officer Survivor Grant Program, the Marguerite Ross Barnett Scholarship, the Minority Teaching Scholarship, the Minority and Underrepresented Environmental Literacy Program, Wartime Veteran's Survivors Grant Program and the Kids' Chance Scholarship. This program also continues to service student repayment and loan forgiveness under the Advantage Missouri Program. Beginning in FY 2018, the number of programs administered has been reduced to 9 since the Minority Teaching Scholarship was not funded. This request is for general revenue appropriation funding of \$149,604 and 2.85 FTE necessary to administer the 9 state funded financial assistance programs.</p>

<p>1a. What strategic priority does this program address? Postsecondary Education Affordability and Attainment.</p> <p>1b. What does this program do? This program should serve the maximum number of eligible students possible, effectively monitor student eligibility, and timely disburse state student financial aid funds. It administered 10 state student financial assistance programs that provided almost \$130 million to more than 64,600 eligible Missouri residents during FY 2017. The programs administered include: Advanced Placement Incentive Grant, Higher Education Academic Scholarship Program (Bright Flight), Access Missouri Financial Assistance Program, A+ Scholarship, Public Service Officer Survivor Grant, the Marguerite Ross Barnett Scholarship, the Minority Teaching Scholarship, the Minority and Underrepresented Environmental Literacy Program, Wartime Veteran's Survivors Grant and the Kids' Chance Scholarship. This program also continues to service student repayment and loan forgiveness under the Advantage Missouri Program. Beginning in FY 2018, the number of programs administered has been reduced to 9 since the Minority Teaching Scholarship was not funded.</p> <p>2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) Chapter 173, RSMo</p> <p>3. Are there federal matching requirements? If yes, please explain. No</p> <p>4. Is this a federally mandated program? If yes, please explain. No</p>

2. CORE DESCRIPTION											
A key responsibility of the Coordinating Board for Higher Education, through the MDHE, is to certify and monitor proprietary schools, including private out-of-state institutions offering programs in Missouri. Fees collected from certified schools and those seeking certification or exemption are deposited into the Proprietary School Certification Fund. Proprietary School Certification administration expenses are paid from the Proprietary School Certification Fund.

Program is found in the following core budget(s): Proprietary Schools Administration

1a. What strategic priority does this program address?

High-quality programs and educational attainment

1b. What does this program do?

This program is the mechanism by which the DHE certifies and monitors postsecondary education institutions not exempted by statute that offer programs in, or recruit students from, Missouri. The program's intent is to ensure students receive training consistent with the published objectives of the course or program of study, adequate and reliable information is available to currently enrolled and prospective students, and that there are the financial and educational safeguards required by the authorizing statute.

The program supports the development of high-quality programs and attainment of postsecondary credentials by carefully evaluating new school applications and requests for new programs or revisions to current programming. Missouri will benefit from decreases in the time to review these applications as new schools and therefore new educational choices are created and new and revised programs are implemented to meet critical workforce needs.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.600 - 173.619, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION														
The DHE holds a security deposit from each proprietary school certified to operate pursuant to sections 173.600 through 173.619, RSMo. The deposit is to indemnify students in cases of malfeasance by a proprietary school or to assist with preservation of student records if adequate provisions are not made by the school upon closure. The security deposit from each proprietary school ranges from a minimum of \$5,000 to a maximum of \$100,000 as required by statute. This appropriation is necessary to ensure the authority to access those monies for indemnification and record preservation purposes in cases of malfeasance by a proprietary school.

Program is found in the following core budget(s): Proprietary School Bond

1a. What strategic priority does this program address?

Consumer protection

1b. What does this program do?

The DHE holds a security deposit from each school certified to operate pursuant to sections 173.600 through 173.619, RSMo. The deposit is to indemnify students in cases of malfeasance by a proprietary school or to assist with the preservation of student records if adequate provisions are not made by the school upon closure. The security deposit requirement is calculated as ten percent of the previous year's gross tuition with a minimum of \$5,000 and maximum of \$100,000.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.612, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

Proprietary School Bond Fund (0760)

2. CORE DESCRIPTION														
This request of \$115,000 is for membership dues in the Midwestern Higher Education Compact (MHEC). Pursuant to Section 173.700, RSMo, Missouri is a member of MHEC, a multi-state commission which is charged with promoting interstate cooperation and resource sharing in higher education accomplishing this through three core functions: cost saving programs, reduced tuition and policy research. Missouri participates in a student exchange program with other states allowing residents to participate in out-of-state instruction at no more than 150 percent of in-state tuition rates. Private institutions offer a 10% reduction on their tuition rates. Missouri also benefits from its membership through participation in the State Authorization Reciprocity Agreement for distance education administered through MHEC. The commission is also active in forming joint purchasing agreements for obtaining property insurance, telecommunications products and services, and student health insurance.

Midwestern Higher Education Compact

Program is found in the following core budget(s): Midwestern Higher Education Compact

1a. What strategic priority does this program address?

Expand postsecondary opportunity and increase affordability

1b. What does this program do?

This program pays the membership dues in the Midwestern Higher Education Compact (MHEC). The purpose of the compact is to provide greater higher education opportunities and services in the Midwestern region with the aim of furthering regional access to, research in and choice of higher education for citizens residing in the states which are party to this compact. Membership allows Missouri to participate in a student exchange program with other states allowing residents to receive out-of-state instruction at no more than 150 percent of the in-state resident tuition rates; private institutions offer a 10% reduction on their tuition rates. Missouri also benefits from its membership through participation in the State Authorization Reciprocity Agreement for distance education administered through MHEC. The membership also offers joint purchasing agreements for obtaining property insurance, telecommunications products and services, and student health insurance.

2. CORE DESCRIPTION											
This program closes out in December 2018. The purpose of this No Child Left Behind (NCLB) program is to increase student achievement through strategies such as improving teacher and principal quality. Additionally, this program is to increase the number of highly qualified teachers in the classroom and highly qualified principals and assistant principals in schools and to hold schools accountable for improvements in student academic achievement.											
In consultation with DESE, the DHE has made a strategic decision to use its funds to focus on professional development of Missouri's K-12 teachers in mathematics and science integrated with literacy. Thus, these funds will be awarded to projects designed by partnerships (partnerships will include higher education institutions, high needs local schools/school districts, and others) to improve mathematics and science education and literacy in grades K-12.

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.025

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

1a. What strategic priority does this program address?

Improving classroom teaching in core subject areas.

1b. What does this program do?

This program focuses on professional development of Missouri's K-12 teachers in core subject areas. These funds will be awarded to projects designed by partnerships between colleges of education, colleges of arts and sciences, and high-need K-12 schools to improve student learning in grades K-12. Each year, a request for proposal specifies which core subjects and grade levels will be involved in that cycle.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.050(2), RSMo; Title II, Part A, of the Elementary and Secondary Education Act: No Child Left Behind Act of 2001, Public Law 107-110.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes, federal funds are allocated to the states under Title II Part A of the Elementary and Secondary Education Act (also known as the No Child Left Behind Act of 2001) to enhance professional development of K-12 teachers in core subjects.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**6. What are the sources of the "Other " funds?**

N/A

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

7a. Provide an effectiveness measure.

Percent of improvement in K-12 teacher participants' content knowledge (as measured by project specific pre-test and post-test scores)

Actual results based on content knowledge pre- and post-tests administered to teacher participants.

*Cycle 13 scores: The small mean gain is reflective of the overall high pre-test scores and teachers continued experience in the projects

Change in Pedagogical Practices Over Time as Measured by Trained Observers

Change in pedagogical practice measured at three points and based on 5 levels of practice: 1 = ineffective instruction, 2 = elements of effective instruction, 3 = beginning stages of effective instruction, 4 = accomplished, effective instruction, 5 = exemplary instruction / reporting only first and final observations

*13 teachers were observed, which reflects a representative sample of the group in terms of experience, school setting, content focus and grade level..

**10 teachers were observed, which reflects a representative sample of the group in terms of experience, school setting, content focus and grade level.

Program is found in the following core budget(s): Improving Teacher Quality Grant

7b. Provide an efficiency measure.

Percent of professional development projects meeting their K-12 teacher participation goals

7c. Provide the number of clients/individuals served, if applicable.

Number of K-12 students directly impacted by the enrollment of K-12 teachers in improving teacher quality professional development projects

Direct impact reflects number of students in classes of professional development teacher participants.

Cycle 10 number of students partly due to less secondary teacher involvement

Cycle 11 numbers due to variation in grade level and proportions of larger or smaller schools over time

Cycle 12 numbers due to variation in grade levels and consequent possible number of students teachers could impact

Cycle 13 increase in numbers due to variation in grade levels and consequent possible number of students teachers could impact

New Federal Grants and Donations

Program is found in the following core budget(s): New Federal Grants and Donations

1a. What strategic priority does this program address?

Assists the MDHE with fulfilling its statutory requirements.

1b. What does this program do?

This program provides a holding place for new federal grants as they become available to the department.

This appropriation supports the Department's research and other public policy initiatives related to: (1) academic program, quality, and effectiveness (increased educational attainment, student success, transfer and articulation, efficiency); (2) linked longitudinal administrative data to support public policy research related to student enrollment and completion patterns, participation in beyond high school education and training programs; (3) integrating state financing policies for higher education (institutional appropriations, tuition and fees, and student financial aid); and (4) the impact of institutional, state, and federal student financial aid on student participation and success in beyond high school education and training programs, and successful participation in the state's labor force, especially for low-income, first-generation, minority and working adult students.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 172, 173, 174, and 178, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

*Planned expenditures are unknown at this time

6. What are the sources of the "Other" funds?

N/A

2. CORE DESCRIPTION

This appropriation provides MDHE with spending authority for non-federal grants.

Prior year grants included the Multi-State Collaborative for Military Credit (MCMC). Grant funds for MCMC will be fully utilized in FY 2018, thus a core reduction is being processed accordingly.

New information provided to the agency indicates that continued spending authority for the Multi-State Collaborative to Advance Learning Outcomes Assessment (MSC) grant will no longer be needed. The MSC was a project designed to provide meaningful evidence about how well students are achieving learning outcomes upon completion of general education coursework using common rubrics developed as part of the AAC&U LEAP Initiative (written communication, quantitative literacy, and critical thinking). Additional funding for the project will not be available, therefore a core reduction is being processed accordingly.

Program is found in the following core budget(s): Other Grants/Donations

1a. What strategic priority does this program address?

CBHE Blueprint for Higher Education Goal 3: Quality

1b. What does this program do?

The Multi-State Collaborative to Advance Quality Student Learning is a thirteen-state initiative sponsored by the State Higher Education Executive Officers (SHEEO) Association and the Association of American Colleges and Universities (AAC&U). The MSC is designed to improve the quality of student learning by developing an approach to general education assessment that links learning outcomes to faculty instruction, actual curricula, and real student work. This approach balances the two most important purposes for assessing student learning outcomes: improving the teaching and learning process at the classroom level and demonstrating public accountability to higher education stakeholders. Student artifacts are evaluated using the written communication, quantitative reasoning, and critical thinking VALUE rubrics created as part of the AAC&U LEAP initiative. Faculty from participating institutions provide student artifacts for scoring and data analysis, in addition to attending training sessions (in person and online) and helping to score student artifacts from across the United States.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.005.2(8), RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

7a. Provide an effectiveness measure.

This project, currently in its fourth year (Refinement Year), continues working to refine the project parameters such as modifying the type of artifacts collected, instructions for submission, and data collected. At the department level, the parameters used to measure the effectiveness of the program will be directed at increasing the number of new Missouri institutions participating in the initiative, retention of currently participating institutions, and increasing the total number of artifacts collected. Although there was a slight decrease in the number of participating institutions from last year (six participants in FY 16 and five participants in FY 17), there was an increase in the number of artifacts collected (882 collected in FY 16 and 897 collected in FY 17). The plan is to increase project participation overall by 50%--eight participating institutions with 1344 artifacts collected. **Stretch Goal: All public universities participating by 2019.**

7b. Provide an efficiency measure.

Efficiency will be measured in terms of processes used to recruit and retain project participants through a variety of means such as: training seminars, monthly meeting updates, and recruitment events. Over the life of the project (four years), over half of the participants involved when it first piloted have persisted through FY 17; the remainder of FY 17 participants have been involved in the project for at least two years.

7c. Provide the number of clients/individuals served, if applicable.

In its first full year of implementation (Implementation Year FY 15), six institutions participated and 1200 artifacts were collected. Year two (Demonstration Year FY16), eight institutions participated and 882 artifacts were collected. For Refinement Year (FY17), five institutions participated and 897 artifacts were collected.

7d. Provide a customer satisfaction measure, if available.

1a. What strategic priority does this program address?

1b. What does this program do?

The Multi-State Collaborative on Military Credit (MCMC) is currently comprised of 13 states whose initiative is to identify policies and practices that will increase military service members' participation in and completion of postsecondary education. The MCMC's goal of putting military service members on an accelerated path towards a postsecondary credential also aligns with the efforts of the Midwestern Higher Education Compact and the Lumina Foundation.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This expenditure authority will allow the department to apply for grants as they arise throughout the year. The MDHE frequently has opportunities to apply for grant funding from private philanthropies and organizations that provides the department with leverage to effect significant change in support of the goals of the blue print for higher education and other statewide initiatives in the areas of affordability, access and efficiency as a measure of quality. The department does not, however, currently have the "line item" authority to spend these funds and must seek legislative approval on a case-by-case basis. This lack of flexibility has harmed the department's efforts to apply for and secure external sources of funding for important initiatives. As grant opportunities are announced, the department would consult with the chairs of the budget committees in both chambers before submitting the application.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The governor recommended \$1 million in expenditure authority for Other Grants and Donations.

2. CORE DESCRIPTION																																																																																																											
<p>In FY 2018, the General Assembly appropriated \$1 for transfer from the department's core budget to the State Legal Expense Fund for the payment of claims, premiums, and expenses provided by Section 105.711 through Section 105.726, RSMo. In order to fund such expenses, the General Assembly also authorized three percent flexibility from the department's operating budget into the \$1 transfer appropriation.</p> <p>A core reduction of this appropriation has been processed.</p>

1 - Students: The student counts in this column contain duplication when students received payment under more than one program.

2 - Program Total: The student counts in this row contain duplication when transfer students received payment for a program at more than one institution. The student count at the intersection of the Students column beneath the All Programs Total Header and the Program Total row contains duplication when students received payments for more than one program and/or at more than one institution.

3 - Unduplicated Student Count by Program: The student counts in this row include a student only once for each program, even if they were paid at more than one institution.

4 - Total Unduplicated Student Count: The student count in this row is for all programs and includes a student only once, even if they were paid for more than one program and/or at more than one institution.

As outlined in the core reconciliation (#5), a new decision item and a core reduction is being processed for this program transfer.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Missouri Higher Education Academic Scholarship, commonly known as Bright Flight and authorized by Section 173.250, RSMo, provides scholarships to students who have a composite score in the top five percent of all Missouri students taking the ACT or the SAT by the June test date of their senior year of high school. The maximum scholarship award is \$3,000 per academic year for students in the top three percent of test takers, and \$1,000 for students in the top 4th and 5th percentiles. The top three percent must receive a full award (\$3,000) before students in the top 4th and 5th percentiles receive any award.

This request is the increase necessary to provide sufficient funds in FY 2019 to offer the full statutory award of \$3,000 for all students scoring in the top three percent.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The number of recipients in this program has increased between three and six percent over the past three years. Based on the number of eligible applicants, we anticipate the number of recipients for FY 2018 will increase by six percent, to 7,467 recipients. Currently we are projecting that same rate of increase for FY 2019, resulting in total recipients of 7,929 for that year. As indicated above, the intent of this item is to maintain award levels at the \$3,000 maximum for the top three percent of test takers. At that award level, it would require approximately \$1.4 million to fully fund the program for these students. However, the actual average award is relatively steady at approximately \$2,860. Given this expected actual award amount, it will require a total appropriation of approximately \$22.7 million to fully fund awards to the top three percent. Based on the current core amount (\$21.7 million after the statutory reserve), a \$1 million increase is needed.

The top three percent must receive a full award (\$3,000) before students in the top 4th and 5th percentiles receive any award.</p> <p>Prior to FY 2018, the primary source of funding for this program was general revenue. During the FY 2018 legislative budget process, \$4 million of the funding was switched from general revenue to the guaranty agency operating fund. Per agreements with the US Secretary of Education, the MDHE is obligated to fulfill its duties as a student loan guaranty agency, which vary based on the economic environment, federal regulatory changes, and other unpredictable factors. The guaranty agency operating fund cannot sustain multiple transfers to the Academic Scholarship Program (Bright Flight) without comprising its ability to meet its primary obligations to the US Secretary of Education and Missouri student loan borrowers.</p>	
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)	
<p>The amount necessary to fund the program at current levels did not change. The \$4 million requested is the amount of the MDHE core cut from the guaranty agency operating fund to be replaced by general revenue funding to maintain the appropriation. A fund switch first occurred in FY2018 to appropriate the funds from the guaranty agency operating fund.</p>

2. CORE DESCRIPTION											
<p>The Missouri Higher Education Academic Scholarship Program (also known as "Bright Flight"), provides scholarships based on academic achievement. The scholarship may be renewed until the first bachelor's degree is received or the scholarship has been received for ten semesters, whichever occurs first. The scholarship includes two award levels based on ACT or SAT scores in the top 3% (a maximum award of \$3,000) or ACT or SAT scores in the top fourth and fifth percentiles (a maximum award of \$1,000). Students scoring in the top 3% must be awarded the \$3,000 maximum before students in the top fourth and fifth percentiles can be awarded. For the 2017-2018 academic year the qualifying composite test scores for students scoring in the top 3% are the following: ACT 31 or SAT math 800 and SAT critical reading 800. The qualifying scores for students scoring in the top fourth and fifth percentiles are an ACT score of 30 or an SAT math score of 770-799 and an SAT critical reading score of 770-799. For the 2018-2019 academic year the qualifying ACT scores remain 31 for students scoring in the top 3% and 30 for students scoring in the top fourth and fifth percentiles. Data to establish the SAT cut scores for 2018-2019 are not yet available.</p> <p>The core request of \$24,676,666 will provide scholarships in the amount of \$2,625 to an estimated 7,929 students qualifying in the top 3%.</p> <p>As outlined in the core reconciliation (#5), a new decision item is being requested for this program.</p>

Academic Scholarship Program (Bright Flight)

Program is found in the following core budget(s): Academic Scholarship Program (Bright Flight)

1a. What strategic priority does this program address?

Postsecondary Affordability and Attainment.

1b. What does this program do?

This program incentivizes academically talented Missouri students to attend a participating Missouri postsecondary institution by providing scholarships based on academic achievement. It encourages the best and brightest students to pursue and complete their education in Missouri rather than out of state. A high school senior must score in the top 5 percent on the ACT or SAT assessment to qualify. The scholarship award is up to \$3,000 annually for those in the top 3 percent and up to \$1,000 for those in the 4th and 5th percentiles. Students in the top 3 percent must be awarded the full \$3,000 before students in the 4th and 5th percentiles can be awarded. Due to funding limitations, top 4th and 5th percentile students have never received awards. The scholarship can be renewed until the first bachelor's degree is received or the scholarship has been received for ten semesters, whichever occurs first.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.250, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Academic Scholarship Program (Bright Flight)

Program is found in the following core budget(s): Academic Scholarship Program (Bright Flight)

6. What are the sources of the "Other " funds?

Academic Scholarship Fund (0840)

Performance of the state student financial assistance programs is dependent upon individual student behavior, as well as the amount of funding appropriated by the General Assembly. As these factors, especially as they relate to student behavior, are beyond the Department of Higher Education's control, base and stretch performance targets do not apply.

7a. Provide an effectiveness measure.

Note: Percentages reflect eligible applicants scoring in the top three percent who received, or are projected to receive, the scholarship at a participating Missouri postsecondary institution for at least one semester in the applicable academic year. They do not reflect the unfunded top fourth and fifth percentiles.

Note: Average sector tuition compared to actual maximum award. Does not include public two-year institutions.

7b. Provide an efficiency measure.

Note: Compares total recipients who graduated from public institutions in each fiscal year to total awards at public institutions in that year. This measure is based on the program's purpose of encouraging students to pursue and complete a degree.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
<p>The Missouri Higher Education Academic Scholarship, commonly known as Bright Flight and authorized by Section 173.250, RSMo, provides scholarships to students who have a composite score in the top five percent of all Missouri students taking the ACT or the SAT by the June test date of their senior year of high school. The maximum scholarship award is \$3,000 per academic year for students in the top three percent of test takers, and \$1,000 for students in the top 4th and 5th percentiles. The top three percent must receive a full award (\$3,000) before students in the top 4th and 5th percentiles receive any award.</p> <p>This request is the increase necessary to provide sufficient funds in FY 2019 to offer the full statutory award of \$3,000 for all students scoring in the top three percent.</p>	
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)	
<p>The number of recipients in this program has increased between three and six percent over the past three years. Based on the number of eligible applicants, we anticipate the number of recipients for FY 2018 will increase by six percent, to 7,467 recipients. Currently we are projecting that same rate of increase for FY 2019, resulting in total recipients of 7,929 for that year. As indicated above, the intent of this item is to maintain award levels at the \$3,000 maximum for the top three percent of test takers. At that award level, it would require approximately \$1.4 million to fully fund the program for these students. However, the actual average award is relatively steady at approximately \$2,860. Given this expected actual award amount, it will require a total appropriation of approximately \$22.7 million to fully fund awards to the top three percent. Based on the current core amount (\$21.7 million after the statutory reserve), a \$1 million increase is needed.</p>

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:			
<p>Because the MDHE has very limited ability to impact these measures, they are identified as projections rather than targets. However, in order to be effective, student financial assistance programs must provide consistent and reliable financial help to students. For this program, that means it is critical to maintain the statutory maximum award for individuals that met the eligibility requirement. This request is required to maintain that award level and, as such, should continue to encourage students to do the work necessary to achieve and maintain scholarship eligibility.</p>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Access Missouri Financial Assistance Program, authorized by Sections 173.1101-173.1107, RSMo, provides need-based financial aid to eligible Missouri residents. A student's financial need, as represented by their expected family contribution (EFC), is calculated based on the standard federal needs analysis formula. Students with an EFC at or below the established cutoff are eligible for an award amount. Award amounts are graduated, using the statutory formula, based on the student's EFC. Within available funding, eligible students receive the highest award possible, up to the maximum established by statute.

For FY 2017, awards were set at 79% of the statutory maximum, primarily due to the Governor's release of \$11 million in funds restricted in FY 2016. For FY 2018, award levels have declined to 70% of the statutory maximum as a result of the exhaustion of those one-time funds. This request is the increase needed to maintain the FY 2018 award levels in FY 2019.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Although the number of students submitting eligible applications (FAFSAs) and receiving awards declined over the past several years, FY 2018 data indicate an increase in the number of recipients by approximately two percent over FY 2017 levels. While projections are difficult, since applications will not begin to be submitted until October of 2017, we anticipate the trend toward increases will continue into FY 2019. This request assumes a continued two percent increase in recipients, raising the number of recipients from 45,443 in FY 2018 to 46,424 for FY 2019. As indicated, the increase is intended to maintain the current award level, which is \$2,000 per recipient. Based on the projected increase in recipients (1,000) and the proposed award level (\$2,000), a \$2 million increase is necessary.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Access Missouri Financial Assistance Program , authorized by Sections 173.1101-173.1107, RSMo, provides need- based financial aid to eligible Missouri residents. A student's financial need, as represented by their expected family contribution (EFC), is calculated based on the standard federal needs analysis formula. Students with an EFC at or below the established cutoff are eligible for an award amount. Award amounts are graduated, using the statutory formula, based on the student's EFC. Within available funding, eligible students receive the highest award possible up to the maximum established by statute.

Prior to FY 2018, the primary source of funding for this program was general revenue. During the FY 2018 legislative budget process, \$5.5 million of the funding was switched from general revenue to the guaranty agency operating fund. Per agreements with the US Secretary of Education, the MDHE is obligated to fulfill its duties as a student loan guaranty agency, which vary based on the economic environment, federal regulatory changes, and other unpredictable factors. The guaranty agency operating fund cannot sustain multiple transfers to the Access Missouri Financial Assistance Program without comprising its ability to meet its primary obligations to the US Secretary of Education and Missouri student loan borrowers.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The amount necessary to fund the program at current levels did not change. The \$5.5 million requested is the amount the MDHE core cut from the guaranty agency operating fund to be replaced by general revenue funding to maintain the appropriation.

Access Missouri Financial Assistance Program

Program is found in the following core budget(s): Access Missouri Financial Assistance Program

1a. What strategic priority does this program address?

Postsecondary Education Affordability

1b. What does this program do?

This need-based program is designed to encourage low income students to access and persist through higher education by reducing the cost of education through financial aid provided to eligible Missouri residents. Within the pool of students determined to have financial need, award amounts are structured to provide the most assistance to the students with the greatest financial need. A student's financial need, as represented by their expected family contribution (EFC), is calculated based on the standard federal needs analysis formula. Students with an EFC at or below the established cutoff are eligible for an award amount. Award amounts are graduated, using the statutory formula, based on the student's EFC. Within available funding, eligible students receive the highest award possible, up to the maximum established by statute.

For FY 2017, the program provided average awards of \$1,676 to approximately 44,480 students.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.1101-173.1107, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

Access Missouri Financial Assistance Program

Program is found in the following core budget(s): Access Missouri Financial Assistance Program

Performance of the state student financial assistance programs is dependent upon individual student behavior, as well as the amount of funding appropriated by the General Assembly. As these factors, especially as they relate to student behavior, are beyond the Department of Higher Education's control, base and stretch performance targets do not apply.

7a. Provide an effectiveness measure.

Note: Average sector tuition compared to maximum annual award. Community college tuition is in-district.

Percent of statutory maximum awards were 79% for FY 2017, 70% for FY 2018, and projected at 67% for FY 2019.

Note: Total eligible applicants compared to the eligible applicants who received, or are projected to receive, the grant at a participating Missouri postsecondary institution for at least one semester in the applicable academic year.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
<p>The Access Missouri Financial Assistance Program , authorized by Sections 173.1101-173.1107, RSMo, provides need- based financial aid to eligible Missouri residents. A student's financial need, as represented by their expected family contribution (EFC), is calculated based on the standard needs analysis formula. Students with an EFC at or below the established cutoff are eligible for an award amount. Award amounts are graduated, using the statutory formula, based on the student's EFC. Within available funding, eligible students receive the highest award possible up to the maximum established by statute.</p> <p>For FY 2017, awards were set at 79% of the statutory maximum, primarily due to the Governor's release of \$11 million in funds restricted in FY 2016. For FY 2018, award levels have declined to 70% of the statutory maximum as a result of the exhaustion of those one-time funds. This request is the increase needed to maintain the FY 2018 award levels in FY 2019.</p>	
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)	
<p>Although the number of students submitting eligible applications (FAFSAs) and receiving awards declined over the past several years, FY 2018 data indicate an increase in the number of recipients by approximately two percent over FY 2017 levels. While projections are difficult, since applications will not begin to be submitted until October of 2017, we anticipate the trend toward increases will continue into FY 2019. This request assumes a continued two percent increase in recipients, raising the number of recipients from 45,443 in FY 2018 to 46,424 for FY 2019. As indicated, the increase is intended to maintain the current award level, which is \$2,000 per recipient. Based on the projected increase in recipients (1,000) and the proposed award level (\$2,000), a \$2 million increase is necessary.</p>

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

Performance of the state student financial assistance programs is dependent upon individual student behavior, as well as the amount of funding appropriated by the General Assembly. As these factors, especially as they relate to student behavior, are beyond the Department of Higher Education's control, base and stretch performance targets do not apply.

6a. Provide an effectiveness measure.

Percent of funds spent on students in the lowest income categories demonstrated by having an EFC in the lowest category (\$500 or less) or being Pell eligible (excluding those in the lowest category to avoid duplication). 7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:			
<p>Because the MDHE has very limited ability to impact these measures, they are identified as projections rather than targets. However, in order to be effective, student financial assistance programs must provide consistent and reliable financial help to students. For this program, that means it is critical to maintain consistent or increasing award levels over an extended period of time. This increase is necessary to maintain the FY 2018 award level and, as such, should continue to encourage students to enroll and persist in postsecondary education as a result of their scholarship eligibility.</p>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
<p>The A+ Scholarship, authorized by Section 160.545, RSMo, provides tuition and fee reimbursement to eligible graduates of designated high schools to attend public community colleges, public vocational or technical schools, or private two-year vocational or technical schools that meet the criteria outlined in the authorizing statute.</p> <p>This request is necessary to sufficiently fund the estimated four percent increase in student participation in the A+ Scholarship Program in FY 2019.</p>	
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)	
<p>Over the past three years, the change in the number of recipients of the A+ scholarship has fluctuated between a decline of six percent and an increase of four percent. An unknown in the current projections is the impact of program expansion to include graduates of designated private high schools. Based on past experience with the program and an MDHE survey of the newly designated high schools, the department projects an increase of five percent for FY 2018, resulting in a projected number of recipients of 13,375. For FY 2019, the department expects continued program growth at currently certified schools as well as the designation of additional private high schools. Based on that information, the department is projecting an increase in recipients of four percent for FY 2019, resulting in a projected number of recipients of 13,916. Because the A+ scholarship amounts are driven by actual tuition and fee costs experienced by students, changes in tuition and fees are also a factor in cost projections for the program. Over the past several years, average awards in the program have increased by approximately \$100 per year. With an actual average award of \$2,660 for FY 2017, the MDHE is projecting average awards of \$2,750 for FY 2018 and \$2,850 for FY 2019. Based on these projections, total program cost is estimated to be \$39.7 million. With a current available core, after the statutory reserve is removed, of \$36.4 million, approximately \$3.5 million additional is needed to maintain full funding of the program.</p>

2. CORE DESCRIPTION											
The A+ program is a school improvement initiative established by the Outstanding Schools Act of 1993 and described in Section 160.545,RSMo. In addition to high school designation, the A+ program provides tuition reimbursement to eligible graduates of designated high schools to attend public community colleges, public vocational or technical schools, or private career technical schools that meet the criteria outlined in Section 160.545, RSMo. The tuition reimbursement component was transferred to the MDHE pursuant to Executive Order 10-16. As of the end of the 2016-2017 academic year there were 534 designated public high schools and 58 designated private high schools. This decision item is to provide funds for only the tuition reimbursement component.											
As outlined in the core reconciliation (#5), a new decision item is being requested for this program.

A+ Schools Program

Program is found in the following core budget(s): A+ Schools Program

1a. What strategic priority does this program address?

Postsecondary Education Preparation, Affordability and Attainment

1b. What does this program do?

This program provides tuition and fee reimbursement to eligible graduates of designated high schools to attend public community colleges, public vocational or technical schools, or private two-year vocational or technical schools that meet the criteria outlined in Section 160.545, RSMo.

The student financial assistance received through this program should increase students' persistence and completion at qualifying postsecondary institutions by covering a significant portion of students' cost of attendance.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 160.545, RSMo.

3. Are there federal matching requirements? If yes, please explain.

No. Students who qualify for federal non-repayable financial aid, such as Pell grant, will have their A+ reimbursement reduced by a corresponding amount.

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

A+ Schools Fund (0955)

Performance of the state student financial assistance programs is dependent upon individual student behavior, as well as the amount of funding appropriated by the General Assembly. As these factors, especially as they relate to student behavior, are beyond the Department of Higher Education's control, base and stretch performance targets do not apply.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The A+ Scholarship, authorized by Section 160.545, RSMo, provides tuition and fee reimbursement to eligible graduates of designated high schools to attend public community colleges, public vocational or technical schools, or private two-year vocational or technical schools that meet the criteria outlined in the authorizing statute.

This request is necessary to sufficiently fund the estimated four percent increase in student participation in the A+ Scholarship Program in FY 2019.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Over the past three years, the change in the number of recipients of the A+ scholarship has fluctuated between a decline of six percent and an increase of four percent. An unknown in the current projections is the impact of program expansion to include graduates of designated private high schools. Based on past experience with the program and an MDHE survey of the newly designated high schools, the department projects an increase of five percent for FY 2018, resulting in a projected number of recipients of 13,375. For FY 2019, the department expects continued program growth at currently certified schools as well as the designation of additional private high schools. Based on that information, the department is projecting an increase in recipients of four percent for FY 2019, resulting in a projected number of recipients of 13,916. Because the A+ scholarship amounts are driven by actual tuition and fee costs experienced by students, changes in tuition and fees are also a factor in cost projections for the program. Over the past several years, average awards in the program have increased by approximately \$100 per year. With an actual average award of \$2,660 for FY 2017, the MDHE is projecting average awards of \$2,750 for FY 2018 and \$2,850 for FY 2019. Based on these projections, total program cost is estimated to be \$39.7 million. With a current available core, after the statutory reserve is removed, of \$36.4 million, approximately \$3.5 million additional is needed to maintain full funding of the program.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Because the MDHE has very limited ability to impact these measures, they are identified as projections rather than targets. However, in order to be effective, student financial assistance programs must provide consistent and reliable financial help to students. For this program, that means it is critical to maintain the full reimbursement of tuition and fees for individuals that met the eligibility requirements during their high school years. This request, which is required to maintain full reimbursement, will maintain that commitment to these students and, as such, should continue to encourage students to do the work necessary to achieve and maintain scholarship eligibility.

2. CORE DESCRIPTION											
<p>The Advanced Placement Incentive Grant was established pursuant to Section 173.1350. This is a nonrenewable grant of \$500 available to any student who receives an Access Missouri Financial Assistance award or an A+ award, and in addition has received grades of three or higher on two advanced placement tests in mathematics or science while attending a Missouri public high school. A \$100,000 donation was received from MOHELA for distribution through this grant. An additional \$100,000 will be requested from MOHELA in FY 2018, leaving \$800,000 remaining of the \$1 million available.</p> <p>Beginning in FY 2013, the Marguerite Ross Barnett Scholarship Program, the Advanced Placement Incentive Grant, the Public Service Officer Survivor Grant Program, the Wartime Veteran's Survivors Grant Program, the Minority Teaching Scholarship Program, and the Vietnam Veterans Survivors Grant Program were combined into a single line item appropriation. This allows any unexpended funds from these programs, after awards are made to all eligible applicants, to be used in the Marguerite Ross Barnett Scholarship Program and other programs in this group that may have more applicants than available funding. The Marguerite Ross Barnett Scholarship Program historically has had more applicants than available funding. Beginning in FY 2017 the Vietnam Veteran's Survivors Grant was removed from this group of programs as it sunset December 31, 2015. Beginning in FY 2018, the Minority Teaching Scholarship will no longer be included in this group of programs since it was not funded.</p>

Marguerite Ross Barnett Scholarship

Program is found in the following core budget(s): Marguerite Ross Barnett Scholarship

1a. What strategic priority does this program address?

Postsecondary Education Attainment and Affordability

1b. What does this program do?

This program awards need-based scholarships to part-time undergraduate students who are employed and compensated for at least 20 or more hours per week. Providing this assistance to working students ensures they have adequate academic, career development, and support services to complete a college credential and can afford to do so.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.262, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION														
Section 173.234, RSMo, establishes the Wartime Veterans Survivor Grant Program to provide up to 25 grants annually to spouses or children of Missouri veterans who died or became disabled related to combat since 9/11/2001. Grants cover actual tuition (capped at the rate charged by the University of Missouri - Columbia), plus up to \$2,000 for room and board and \$500 for books per semester. Based on 12 semester credit hours of attendance, the maximum annual award would be \$11,768 per grant. Applicants are ranked first by renewal status and then by application received date. Renewal applicants have priority until May 1. Renewal applications received after May 1 are ranked by application received date with initial applicants. Once the 25 recipient maximum has been reached, applicants are placed on a waiting list. FY 2018 is the first year in which the waiting list has been utilized. If the waiting list exceeds 50 applicants, the department may petition the General Assembly to expand the quota. This item provides funding for 25 students with a reduced room and board allowance.

Beginning in FY 2013, the Marguerite Ross Barnett Scholarship Program, the Advanced Placement Incentive Grant, the Public Service Officer Survivor Grant Program, the Wartime Veteran's Survivors Grant Program, the Minority Teaching Scholarship Program, and the Vietnam Veterans Survivors Grant Program were combined into a single line item appropriation. This allows any unexpended funds from these programs, after awards are made to all eligible applicants, to be used in the Marguerite Ross Barnett Scholarship Program and other programs in this group that may have more applicants than available funding. The Marguerite Ross Barnett Scholarship Program historically has had more applicants than available funding. Beginning in FY 2017 the Vietnam Veteran's Survivors Grant was removed from this group of programs as it sunset December 31, 2015. Beginning in FY 2018, the Minority Teaching Scholarship will no longer be included in this group of programs since it was not funded.

As outlined in the core reconciliation (#5), a new decision item is being requested for this program.

1a. What strategic priority does this program address?

Postsecondary Education Attainment and Affordability

1b. What does this program do?

HB 1678 (2008) established the Wartime Veterans Survivor Grant Program to provide up to 25 scholarships annually to spouses or children of Missouri veterans who died or became disabled from combat after 9/11/2001. Grants include tuition (capped at the rate charged by the University of Missouri - Columbia), plus up to \$2,000 for room and board and \$500 for books per semester. Based on 12 semester credit hours of attendance, the maximum annual award would be \$11,768 per grant. The grant encourages persistence and completion by reducing the cost of education for as many eligible students as possible whose families have suffered significant personal and financial loss.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Wartime Veteran's Survivors Grant, authorized by Section 173.234, RSMo, provides up to 25 grants annually to spouses or children of Missouri veterans who died or became disabled from combat after 9/11/2001. Grants include tuition (capped at the rate charged by the University of Missouri - Columbia), plus up to \$2,000 for room and board and \$500 for books per semester. Program growth has resulted in the program reaching the statutory 25 recipient maximum in FY 2018. The core was originally sufficient to cover 25 students, but was reduced to provide more funding for the growing Public Safety Officer Survivor Grant program. Because of this situation, awards for FY 2018 were reduced in order to ensure expenditures remain within the appropriated funds.

This request restores the program to full funding, allowing award amounts to return to the full statutory maximum.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

For FY 2018, this program is funding the statutory maximum number of students (25) and it is anticipated the program will continue to have sufficient applicants to require continuing to fund that number of students. Given the projected FY 2018 maximum award (\$11,768), payments to 25 students would result in a total expenditure of \$294,200. With a core appropriation, after the statutory reserve is removed, of \$234,013, an increase of \$60,000 is required to return the program to full funding.

Because the MDHE has very limited ability to impact these measures, they are identified as projections rather than targets. However, in order to be effective, student financial assistance programs must provide consistent and reliable financial help to students. For this program, that means it is critical to maintain the statutory maximum award for individuals that met the eligibility requirement. This request is required to maintain that award level and, as such, should encourage students to do the work necessary to maintain scholarship eligibility.

2. CORE DESCRIPTION																			
The Kid's Chance Scholarship Program, established in 1998 in section 173.254, RSMo, authorizes the Coordinating Board for Higher Education to provide scholarships for the children of workers who were seriously injured or died in a work related accident or an occupational disease covered by workers' compensation and compensable pursuant to Chapter 287, RSMo. Eligible students can attend a Missouri college, university, or accredited vocational institution of their choice. The statute provides that the director of the division of workers' compensation deposits \$50,000 each year, beginning in 1999 and ending in 2018, into the Kids' Chance Scholarship Fund. Awards can only be made using the interest earnings in the fund. This request allows the department to issue approximately 2 scholarships for the 2018-2019 school year.

2. CORE DESCRIPTION

The Minority and Underrepresented Environmental Literacy Program provides scholarships to full-time students who are members of an identified minority and underrepresented population who pursue a bachelor's or master's degree in an environmental-related field of study at a Missouri college or university and who meet specified academic standards. The core request for \$32,964 will allow the MDHE to offer scholarships to approximately 12 students in FY 2019. The Minority Environmental Literacy Advisory Committee selects recipients and therefore determines the number of students served each year. The appropriation is divided among the selected recipients, with some recipients receiving a full award and some receiving one half of the full award, as determined by the committee. For FY 2018 the full award is \$3,761.75 and the half award is \$1,880.75.

Minority & Underrepresented Environmental Literacy Program

Program is found in the following core budget(s): Minority & Underrepresented Environmental Literacy Program

1a. What strategic priority does this program address?

Postsecondary Education Attainment and Affordability

1b. What does this program do?

The Minority and Underrepresented Environmental Literacy Program was established in 1996 by the Missouri Legislature to create opportunities for students to explore areas of environmental science, provide funds for students contingent upon academic status and performance, and create a pool of applicants that reflects the cultural diversity of Missouri. The program provides scholarships to students who pursue a bachelor's or master's degree in an environmentally-related field of study at a Missouri college or university. Priority is given to minority and underrepresented students. This program should encourage applicants to persist toward and complete an environmentally-related degree by providing financial assistance to reduce the cost of education.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.240, RSMo

FLEXIBILITY REQUEST FORM

288

BUDGET UNIT NUMBER:	55710C	DEPARTMENT:	Higher Education
BUDGET UNIT NAME:	Loan Program Administration	DIVISION:	Student Loan Program
HOUSE BILL SECTION:	3.100		

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST				GOVERNOR'S RECOMMENDATION
Federal (0880)	PS	\$579,066	25%	Provided that not more than 25% flexibility is allowed between personal service and expense & equipment, and not more than 25% flexibility is allowed between divisions within the department, and not more than 10% flexibility is allowed to reallocation of personal service and expense & equipment between executive branch departments provided that the total FTE for the state does not increase.
Federal (0880)	E&E	\$706,423	25%	
Loan program operations are heavily outsourced with the MDHE staff overseeing contractors and vendors. Flexibility allows the loan program to continually explore all options in administering the program most efficiently.				

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0	Flexibility will be used if needed to outsource additional functions or bring currently outsourced functions in-house as circumstances dictate.	The student loan industry continues to be in a state of flux. Little flexibility is expected to be used at this time, but all options need to remain open as market changes and federal program requirements are unpredictable.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
No flexibility was used in FY17.	Flexibility will be used if needed to outsource additional functions or bring currently outsourced functions in-house as circumstances dictate.

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.100

Missouri Student Loan Administration

Program is found in the following core budget(s): Loan Program Administration

1a. What strategic priority does this program address?

This program promotes higher education access and affordability

1b. What does this program do?

The DHE Student Loan Program is a guaranty agency for the Federal Family Education Loan (FFEL) program. As a guaranty agency, this program has insured lenders of Federal Stafford, PLUS and Consolidation student loans from losses due to default at 97 to 98 percent depending on the loan disbursement date and at 100 percent due to loan discharge. The DHE Student Loan Program had total outstanding guaranteed loan balances of more than \$1.4 billion at June 30, 2017. Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or insure loans under the FFEL Program ended June 30, 2010. However, the DHE will continue to act as the US Department of Education's (USDE) agent by fulfilling responsibilities related to outstanding guarantees, which includes working with students, borrowers, schools, lenders, servicers and the USDE to ensure compliance with applicable federal laws and regulations.

Also of critical importance to the outstanding FFEL portfolio is the guaranty agency's efforts with respect to default prevention and aversion, as well as default collection. As required by federal statute, the agency provides collections assistance to loan holders and counseling assistance to borrowers when a borrower becomes more than 60 days delinquent on their student loan. During FY 2017, the DHE received more than 25,000 default assistance requests from lenders. The DHE averted 86 percent of delinquent loans from default.

The loan program also provides postsecondary institutions with default prevention grants, in-person training sessions, training materials, financial literacy materials, and electronic entrance and exit counseling for borrowers. During FY 2017, the DHE granted over \$634,410 to post-secondary institutions for default prevention activities.

In addition to post-secondary outreach efforts, the DHE provides information to prospective students and their families regarding how to plan for and pay for college. DHE coordinates a suite of statewide college access programs known collectively as Journey to College. Journey to College programs include FAFSA Frenzy, Apply Missouri, and Decision Day. In addition, each year the DHE participates statewide in college college fairs, presents information about planning and paying for college to high school students and their families, and distributes over 280,000 copies of publications and promotional materials designed to educate Missourians on financial aid options and services.

Yet another significant role of the guaranty agency is to collect on defaulted student loans to keep the cost of the FFEL program as low as possible. The DHE Student Loan Program utilizes a variety of collection methods to recover defaulted loans including administrative wage garnishment, state tax refund offset, US Treasury offset, regular borrower payments, loan rehabilitation and loan consolidation.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Federal Higher Education Act of 1965, as amended, 20 U.S.C. 1071, et seq.; 34 C.F.R. Parts 658 and 682; Sections 173.095 - 173.187, RSMo

7a. Provide an effectiveness measure.

The DHE coordinates the statewide Apply Missouri program through which participating high schools help seniors with the college application process during the school day. One way to measure the program's effectiveness is by the percentage of seniors at participating high schools who submit a college application during the program. The program was in its 4th year during fiscal year 2017 and continues to grow each year. The unique qualities of each new high school added make future effectiveness difficult to project, but DHE considers a 75 percent application submission rate to be a baseline and hopes to see 85 percent of participating high school seniors submit a college application during the next program year.

The DHE also coordinates the statewide FAFSA Frenzy program through which volunteers assist students and families complete the Free Application for Federal Student Aid. One way to measure the program's effectiveness is by the percentage of participants who submit a FAFSA. DHE considers a 76.5 percent application submission rate to be a baseline for the coming year and hopes to see 77 percent of participants submit a FAFSA during the event.

7b. Provide an efficiency measure.

The DHE works to provide important college planning and financial literacy information to Missourians at a the lowest cost possible while maintaining an acceptable level of quality. DHE intends to keep the cost per publication below \$0.68, but is striving to maintain the 2017 cost of \$0.62 per piece. NOTE: During FY15 and FY16, the cost to DHE was reduced by amounts subsidized by the national College Access Challenge Grant.

*Note - each year the DHE distributes over 280,000 copies of publications and promotional materials designed to educate Missourians on financial aid options and services.

2. CORE DESCRIPTION									
<p>U.S. Department of Education regulations require all guaranty agencies to deposit all funds collected from defaulted borrowers into the Federal Student Loan Reserve Fund within 48 hours of collection or reimburse the federal government for interest that should have accrued to the Federal Fund. DHE contracts with a loan servicer who subcontracts with collection agencies to recover defaulted loans. DHE pays the loan servicer a percentage of the amount collected using the Guaranty Agency Operating Fund share of collection revenues described in the Collection Payments Transfer appropriation authority request. Current economic conditions and industry specific conditions make it difficult to predict what contingency fees the DHE may be required to pay for collections. However, the DHE must continue to meet federal requirements for collecting federal student loans. These requirements necessitate continuing the appropriation authority of \$8,000,000 in federal loan funds from the Guaranty Agency Operating Fund.</p> <p>In addition, spending authority of \$500,000 in federal funds from the Guaranty Agency Operating Fund is necessary to provide a mechanism for paying penalties determined under the federal rules. No general revenue funds are requested.</p>

1a. What strategic priority does this program address?

Promote higher education access and affordability

1b. What does this program do?

This appropriation request is part of the DHE Student Loan Program. As part of its statutory requirements, the DHE Student Loan Program contracts with a loan servicer who subcontracts with collection agencies to collect on defaulted loans. The Student Loan Program pays the loan servicer a percentage of the amount collected by the collection agencies with the Guaranty Agency Operating Fund share of collection revenues described in the Collection Payments Transfer appropriation authority request.

As a result of the current economic conditions and changes in the student loan industry, the agency anticipates a slight decline in collections rate from defaulted borrowers in future fiscal years. Rapidly changing conditions make it difficult to determine the full impact on DHE's collections.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Federal Higher Education Act of 1965, as amended, 20 U.S.C. 1071, et seq.; 34 C.F.R. Parts 658 and 682; Sections 173.095 - 173.187, RSMo

2. CORE DESCRIPTION														
The Higher Education Amendments of 1998 require guaranty agencies to deposit certain percentages of payments received from defaulted borrowers into the Federal Student Loan Reserve Fund and the Guaranty Agency Operating Fund. It also requires the guaranty agencies to transfer default aversion fees from the Federal Student Loan Reserve Fund to the Guaranty Agency Operating Fund. This request for \$15,000,000 in transfer authority is necessary to enable the DHE to transfer the appropriate amount of collections from and on behalf of defaulted borrowers, initially deposited in the Federal Student Loan Reserve Fund, to the Guaranty Agency Operating Fund as required by the Amendments. This request actually relates to revenues from collection activity performed by the guaranty agency. However, because collection revenues must first be deposited in the Federal Fund, which is property of the federal government, the portion earned by the guaranty agency must be transferred to the Guaranty Agency Operating Fund. The appropriation also allows the DHE to transfer one percent of the principal and interest of delinquent loans from the Federal Student Loan Reserve Fund to the Guaranty Agency Operating Fund. This money is used to provide default aversion assistance to lenders when a loan becomes more than 60 days delinquent.														

Department of Higher Education	Budget Unit	55712C
Division of Student Loan Program		
Core - Collection Payments Transfer	HB Section	3.105
<p>The DHE expects purchases of loans from lenders to eventually decline over the next several years, which will reduce revenues in the Federal Student Loan Reserve Fund. Because the primary purpose of the Student Loan Reserve Fund is to purchase defaulted loans, in order to maintain adequate cash reserves to purchase loans, in prior years, the DHE did not always transfer collection payments and default aversion monies during applicable fiscal years. Transfer authority of \$15,000,000 is required to transfer the appropriate amounts to the Guaranty Agency Operating Fund as reserve levels permit. No general revenue funds are requested.</p> <p>Due to the timing of when the transfers were completed, FY15 total expenditures appears to be excessively higher than total transfers made in FY16 and FY17. However, FY15 transfers included 19 months of accrued revenue where FY16 included just 10 months. FY17 transfers included revenue relating to 12 months of activity.</p>

PROGRAM DESCRIPTION	
Department of Higher Education Student Loan Collection Payments	HB Section(s): <u>3.105</u>
Program is found in the following core budget(s): Collection Payments Transfer	
<p>1a. What strategic priority does this program address? Promote higher education access and affordability</p> <p>1b. What does this program do? This appropriation authority request, which is part of the DHE Student Loan Program, enables the DHE to transfer the appropriate amount of collection revenues from and on behalf of defaulted borrowers, initially deposited in the Federal Student Loan Reserve Fund, to the Guaranty Agency Operating Fund as required by federal law. In addition, the appropriation allows the DHE to transfer 1% of principal and interest on delinquent loans from the Federal Student Loan Reserve Fund to the Guaranty Agency Operating Fund for default aversion assistance requests from lenders.</p> <p>In fiscal year 2017, the DHE Student Loan Program and its contractors collected nearly \$77 million from defaulted borrowers on a defaulted loan inventory of over \$298 million. While the majority of these collection revenues are the property of the US Secretary of Education, the DHE Student Loan Program retains from 10 to 18.5 percent (depending on the collection type) of these revenues to pay collection related expenses, which includes collection agency commissions and other collection related expenses as described in the Federal Loan Compliance appropriation authority request. The DHE's share of collections for state fiscal year 2017 was approximately \$11 million. The DHE Student Loan Program pays collection commissions with the DHE's Operating Fund share of collection revenues described in this request. In fiscal year 2017, the program collected over 26 percent of its outstanding defaulted student loan portfolio through collection contractors.</p> <p>Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the DHE no longer has the authority to guarantee new federal student loans. However, the DHE Student Loan Program will continue to spend considerable time and effort trying to prevent borrowers from defaulting on their student loans. The program utilizes numerous methods to reduce student loan defaults including providing assistance to lenders when a loan becomes more than 60 days delinquent. In state fiscal year 2017, the loan program provided default aversion assistance to borrowers and their lenders for nearly 70,000 loans. Preventing defaults and collecting from defaulted borrowers is a critical part of protecting the state and federal fiscal interest.</p> <p>2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) Federal Higher Education Act of 1965, as amended, 20 U.S.C. 1071, et seq.; 34 C.F.R. Parts 658 and 682; Sections 173.095 - 173.187, RSMo</p> <p>3. Are there federal matching requirements? 2. CORE DESCRIPTION											
<p>This fund is used to purchase loans from lenders and reimburse monies to the federal government as necessary. The US Department of Education (USDE) requires the DHE to purchase eligible loans from lenders within 45 to 90 days of the date a lender submits the purchase request. Effective December 1, 2015, the USDE began reimbursing the DHE for purchased loans at a rate of 100%. If the DHE cannot purchase loans timely due to inadequate appropriation authority, the USDE will not reimburse the DHE for the loan purchases and may revoke the DHE's authority to act as a guaranty agency for the Federal Family Education Loan Program.</p> <p>Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or insure new loans under the FFEL Program ended June 30, 2010 as those loans will be disbursed through the Federal Direct Loan Program. The DHE will continue to purchase existing MDHE-guaranteed loans held by FFEL Program lenders. However, the DHE expects purchases of loans from lenders to eventually decline over the next several years with no new loan guarantees. Based on this decline, DHE initiated a core reduction of \$40,000,000 to this appropriation for fiscal year 2018 bringing the requested amount from \$160,000,000 to \$120,000,000. An appropriation of \$120,000,000 (federal funds) is required again for fiscal year 2019. The fund is the property of the federal government.</p>

Program is found in the following core budget(s): Federal Student Loan Reserve Fund	
<p>1a. What strategic priority does this program address? Promote higher education access and affordability</p> <p>1b. What does this program do?</p> <p>This appropriation request is part of the DHE Student Loan Program. This request is used to purchase defaulted and discharged student loans from lenders and to return or reimburse monies to the federal government as necessary. The fund balance related to this appropriation is the property of the federal government.</p> <p>As an agent of the US Department of Education (USDE), the DHE Student Loan Program insures private commercial banks against loss from defaulted and discharged student loans. Lenders are insured at 97 to 98 percent of the outstanding principal and interest at time of default for defaulted loans, depending on the loan disbursement date and 100 percent for loans discharged due to death, disability, closed school and bankruptcy. DHE must review each claim filed by a lender to ensure the lender has complied with all federal laws and regulations throughout the life of the loan to that point. If the lender fails to comply with all federal and DHE Student Loan Program guidelines, the insurance claim will be denied and the lender loses the federal loan guarantee and must try to collect the loan. In FY17, the Student Loan Program reviewed and paid approximately 9,000 claims. As the result of changes implemented December 1, 2015 the DHE Student Loan Program is now reinsured by the federal government at 100 percent on all claim types.</p> <p>After purchasing defaulted loans, DHE attempts to recover the defaulted debt through various collection efforts. The proceeds from defaulted student loan collections are deposited into the Federal Student Loan Reserve Fund and the portion due to the Guaranty Agency Operating Fund is subsequently transferred to that fund.</p> <p>The enactment of the Healthcare and Education Affordability Reconciliation Act of 2010 (Public Law 111-152) makes it difficult for the DHE to predict future claim volume. As a result of the law, the DHE no longer has authority to guarantee new federal student loans effective June 30, 2010 as those loans are disbursed through the Federal Direct Loan Program. The DHE will continue to purchase existing DHE-guaranteed loans held by FFEL Program lenders. However, the DHE expects purchases of loans from lenders to eventually decline over the next several years with no new loan guarantees.</p> <p>2. The recovery rate represents the percentage (%) of DHE's outstanding defaulted loan balances recovered through collections in a given year. The MDHE's baseline goal for next year is to recover 23 percent of its default portfolio, but hopes to recover 26%. Although this measure does reflect the effectiveness of collections efforts, direct control over this metric is limited, so MDHE hopes to replace this measure with one demonstrating its effectiveness in helping defaulted borrowers regain eligibility for Title IV financial assistance.

2. CORE DESCRIPTION											
<p>The Higher Education Amendments (HEA) of 1998 require guaranty agencies to deposit certain percentages of payments received from defaulted borrowers into the Federal Reserve Fund, which is the property of the federal government. All amounts collected from defaulted borrowers are first deposited into the Federal Reserve Fund, with DHE's portion transferred out into the Guaranty Agency Operating Fund. Due to reconciling items, it is sometimes necessary to transfer funds back to the Federal Fund. In addition, the HEA also requires the DHE to ensure that the Federal Reserve Fund has cash flow sufficient to pay claims to lenders and meet federally mandated reserve levels, so at times it may be necessary to transfer an amount from the Guaranty Agency Operating Fund (0880) to the Federal Fund to maintain the minimum reserve level.</p>											
<p>Although this appropriation is infrequently used, this request for a transfer appropriation of \$1,000,000 is necessary to ensure federal compliance in the event that the DHE is required to transfer money to the Federal Reserve Fund from the Guaranty Operating Fund in order to make adjustments to collections from defaulted borrowers and to ensure that the Federal Fund has sufficient cash flow to meet obligations and minimum reserve levels.</p>

2. CORE DESCRIPTION
<p>This request is for continuation of the core funding for a satellite Doctor of Pharmacy program developed by the University of Missouri - Kansas City (UMKC) at Missouri State University (MSU). This funding allows students to be admitted to the joint program to increase the number of licensed pharmacists. The sustaining appropriation supports the additional personnel and distance education costs for the program. The staffing and distance education are part of UMKC's budget. The pharmacy students on the MSU campus are registered at UMKC, are considered and treated as UMKC students, but receive student services at MSU.</p> <p>The satellite program admits up to 30 students/class, and the first class of students was admitted in Fall 2014.</p>

PROGRAM DESCRIPTION

Department of Higher Education Program Name: University of Missouri Program is found in the following core budget(s): University of Missouri - UMKC/MSU Doctor of Pharmacy Program	HB Section(s): <u>3.125</u>
--	-----------------------------

1a. What strategic priority does this program address?
 Graduate licensed pharmacists in southwest Missouri

1b. What does this program do?
 This funding supports UMKC's development of a satellite Doctor of Pharmacy program at Missouri State University. The staffing and distance education costs are part of UMKC's budget. The pharmacy students on the MSU campus are UMKC students, but receive student services at MSU. The funds covering costs for these services are transferred from UMKC to MSU. The satellite program admits up to 30 students/class and admitted the first class of students in Fall 2014. In FY14-15, the program completed renovation of 15,000 sq. ft. state-of-the-art distance education space on the MSU campus, and hired an Associate Dean to lead the site along with its first two faculty members and a administrative support staff. In FY16, the school admitted the second class of students and hired five new faculty and an additional administrative staff. In FY17, the school admitted the third class of students. The budget supports an IT specialist for MSU to assist with distance education, and funds to cover these costs are transferred from UMKC to MSU. Once this infrastructure is solidified, the sustaining appropriation supports the personnel and distance education costs for the program.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 UMKC Pharmacy is a component of the University of Missouri and falls under these statutes -Section 172.010 - 172.950.

3. Are there federal matching requirements? If yes, please explain.
 No

4. Is this a federally mandated program? If yes, please explain.
 No

Program Name: University of Missouri	
Program is found in the following core budget(s): Missouri University of Science & Technology Project Lead the Way	
<p>1a. What strategic priority does this program address? Enhance the pipeline for STEM students in southern Missouri</p> <p>1b. What does this program do?</p> <p>Missouri University of Science and Technology will partner with southern Missouri schools to increase the number of school districts utilizing Project Lead the Way (PLTW). The goal of PLTW is to help students understand that STEM education is relevant in their lives and see potential for future careers. PLTW depends not only on rigorous and relevant pre-engineering and science curricula, but also on trained teachers to instruct the next generation of scientists and engineers. As a leading affiliate university, Missouri S&T provides teacher training, professional development, and information for counselors and administrators throughout the Midwest. Students are also exposed to STEM careers through professionals from local industries who supplement the curriculum through mentorships and workplace experiences.</p> <p>This appropriation was provided in FY17 to help the poorest school districts in southern Missouri to offset costs of these programs and to provide state match for potential federal grant money. The majority of the funds were subject to withholdings in FY 17 and FY 18. The \$400,000 is needed on a recurring basis.</p> <p>The appropriation will be used initially to cover one-time costs associated with PLTW implementation, concentrating on building successful partnerships with schools and local employers. Schools in a ten county southern Missouri area will be targeted to apply for PLTW support on a first come basis. This area is the poorest in Missouri and one of the poorest in the United States.</p> <p>2. What is the authorization for this program, i.e., federal or state statute, etc.? 7a. Provide an effectiveness measure.

Current plans for this program are to concentrate in a ten county area, with pilots in the Houston, Missouri School District as well as West Plains (Fairview), Van Buren and Success. Future effectiveness measures being evaluated include: increases in school districts involved in PLTW, increases in programs offered and delivered in STEM (science, technology, engineer and math) areas, and increases in local industry support. Ultimately, improved MAP test results in STEM areas for participating school districts is anticipated.

7b. Provide an efficiency measure.

Efficiency measures are still being evaluated.

PROGRAM DESCRIPTION

367

Department of Higher Education	HB Section(s): 3.131
Program Name: Graduate & STEM Education Programs	
Program is found in the following core budget(s): Harris-Stowe State University	
<p>1a. What strategic priority does this program address? To increase degree attainment statewide</p> <p>1b. What does this program do? STEM Need in Missouri In Missouri, the job market through 2022 is expected to grow at 10.2% for STEM jobs compared to the 8.6% average expected combined growth attributed to all occupations in the state (Missouri Dept. of Economic Development, 2014), but Missouri faces challenges that threaten a prosperous economy. Recently, Missouri dropped 5 places from 29th to 34th in the Milken Institutes Human Capital Investment Composite Index (Milken Institute, 2014). This index broadly measures investment into workforce development including educational resources devoted to STEM education, and is considered an indicator of future economic viability. More troubling is the disparity in education levels between different ethnicities, especially in STEM disciplines. Currently, URM (under representative minorities) comprise 18.4% of the population of Missouri, yet only 7.6% of baccalaureate degrees in STEM fields are awarded to URM (MDHE and US Census Bureau 2014). Alleviating the entrenched economic and educational disparities in Missouri will require effective measures to enable students from underrepresented groups to not only enter college, but to successfully earn baccalaureate degrees and certification in STEM areas. Harris-Stowe has purposefully increased its STEM degrees and minors to meet these needs. As a result, these programs are the fastest growing disciplines in the institution. Currently Harris-Stowe has one of the top enrollments in the state for African-Americans in Biology and is the only Missouri institution ranked in the nation for conferring degrees to African-Americans in Mathematics. Harris-Stowe's goal is to double STEM enrollment and graduates by 2020. State support is critical to this endeavor. </p> <p>STEM Need at Harris-Stowe</p> <p>Harris-Stowe STEM labs were designed when the institution was primarily a teaching institution and unfortunately have not been significantly upgraded in decades. Harris-Stowe currently has five laboratories in great need of repair. This includes a complete overhaul of each laboratory space in order to meet all applicable accreditation standards and safety regulations. A renovation of Harris-Stowe's labs is critical in advancing the mission and the five year strategic plan of the institution. These labs are nearly 80 years old and have not been extensively renovated in that time period. Most of the original equipment such as ventilation hoods and chemical storage facilities are original to the building built in 1930.</p> <p>Renovations to existing lab spaces will allow Harris-Stowe to reach additional goals such as offering certificate programs in STEM related fields that will better prepare Missouri students for the workforce. These certificates include Coding, Cybersecurity, Microsoft certification, and Urban Agriculture. In addition, renovated laboratories will allow Harris-Stowe's faculty to provide workshops and in-service activities to K-12 science and mathematics educators.</p>

2. CORE DESCRIPTION

This request is for continuation of the core funding for a medical school clinical campus in Springfield, Missouri. In response to the shortage of physicians in Missouri, the University of Missouri School of Medicine in Columbia will partner with Cox Health and Mercy Health Systems in Springfield, Missouri to increase clinical opportunities and allow for increased medical school enrollment at MU. The clinical campus in Springfield and expanded educational facilities in Columbia allows MU to accept additional medical students annually, with 30-35 students from each class completing the second two years of their medical education in Springfield, resulting in 128 students in the Springfield campus expansion.

In the past, the University has been appropriated \$10.0 million for this program. The appropriation has been reduced to \$5.0 million. The University has indicated if full general revenue funding of \$10.0 million is not received, it must consider the long term viability of the program, which could include eliminating the program after graduating current students in the pipeline.

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.135

Program Name: University of Missouri

Program is found in the following core budget(s): University of Missouri - MU Medical School Partnerships

1a. What strategic priority does this program address?

Graduate licensed physicians in southwest Missouri

1b. What does this program do?

In response to the shortage of physicians in Missouri, the University of Missouri School of Medicine in Columbia and CoxHealth and Mercy Health Systems in Springfield increased medical school enrollment at MU by creating a clinical campus in Springfield, Missouri. At the University of Missouri School of Medicine in Columbia and most other medical schools, students complete four years of education to receive a medical degree and become a physician. Students primarily spend the first two years learning foundational aspects of medicine in educational facilities — such as classrooms, labs, libraries and auditoriums — from a variety of biomedical scientists and physician educators. Students spend much of the final two years of medical school in patient-care facilities such as hospitals and clinics. This clinical component of medical student education involves directly interacting with patients under the supervision of physicians practicing in a variety of specialties, such as family and community medicine, internal medicine, pediatrics, surgery, neurology, psychiatry, obstetrics and gynecology.

Each of the past two years, MU received more than 2,400 applicants to medical school, but it only had the capacity to accept 96 new medical students annually. The clinical campus in Springfield and expanded educational facilities in Columbia allows MU to accept additional medical students annually, with 30-35 students from each class completing the second two years of their medical education in Springfield, resulting in 128 students in the Springfield campus expansion. The first expanded medical school class admitted 8 students in FY15, FY16, FY17 and will continue with 32 in FY18, and 32 each year thereafter, if full funding is received.

In the past, the University has been appropriated \$10.0 million for this program. The appropriation has been reduced to \$5.0 million. The University has indicated if full general revenue funding of \$10.0 million is not received, it must consider the long term viability of the program, which could include eliminating the program after graduating current students in the pipeline.

2. CORE DESCRIPTION																			
This request is for continuation of the core funding for a cooperative Dental program developed by the University of Missouri - Kansas City (UMKC) at Missouri Southern State University (MSSU) . This will allow students to be admitted to the program to increase the number of oral health care providers in the southern Missouri region. The sustaining appropriation supports the additional personnel and distance education costs for the program. Once funding is secured, the cooperative program will admit a cohort of 15 students incrementally with the goal of 60 students being a part of the 4 year program.

PROGRAM DESCRIPTION

Department of Higher Education _____	HB Section(s): <u>3.140</u>
Program Name: Univ of MO-Kansas City School of Dentistry Satellite at MO Southern State Univ _____	
Program is found in the following core budget(s): Missouri Southern State University and University of Missouri-Kansas City	
<p>1a. What strategic priority does this program address? Graduate licensed dentists in southwest Missouri</p> <p>1b. What does this program do? The University of Missouri-Kansas City (UMKC) campus is partnering with Missouri Southern State University (MSSU) in Joplin to educate and provide additional oral health care providers in the southern Missouri region. This initiative brings the collective expertise of two of Missouri's public universities together. UMKC School of Dentistry is the state's only public dental school and MSSU has an outstanding dental hygiene program.</p> <p>In FY17, UMKC and MSSU jointly requested and received appropriations for this effort. MSSU was appropriated \$2.0 million and UMKC was appropriated \$1.0 million recurring operating and \$500,000 in capital appropriations. Funding was withheld and UMKC received \$565,831 of the \$1.0 million of recurring funding. In FY 18, there was no operating appropriation. There was a capital appropriation for UMKC of \$482,439. UMKC requires \$1.5 million recurring to deliver the program.</p> <p>Once the infrastructure is solidified, the sustaining appropriation supports the additional personnel and distance education costs for the program. The staffing and distance education costs will be a part of UMKC's budget. The students on the MSSU campus will be registered at UMKC, will be considered and treated as UMKC students, but will have the opportunity for ancillary services at MSSU such as parking, library facilities, and other student activities. MSSU is providing physical space and other support costs needs of the new program.</p>	
<p>2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) UMKC Dental is a component of the University of Missouri and falls under Section 172.010 - 172.950, RSMo. MSSU is authorized in Section 174, RSMo.</p>	
<p>3. Are there federal matching requirements? If yes, please explain. No</p>	
<p>4. Is this a federally mandated program? If yes, please explain. No</p>

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

*Net of expenditure restrictions. FY 17 expenditure data reflects \$1,131,669 to MSSU and \$565,831 to UMKC.

6. What are the sources of the "Other " funds?

N/A

7a. Provide an effectiveness measure.

Address the shortage of oral health service providers by increasing the number of oral health students graduating annually. DDS students in the cooperative satellite program:

FY2021 Planned	FY2022 Planned	FY2023 Planned	FY2024 Planned
15	30	45	60

A 15 cohort group of candidates will be admitted. When fully implemented, 60 students will be a part of the 4 year program.

These numbers are based on a full \$1.5 million in recurring funds appropriated to UMKC. Delays will occur if that funding is not secured. \$1.5 million in recurring funding is required for UMKC to sustain the program accreditation.

2. CORE DESCRIPTION

This request is for continuation of the core funding to support the collaboration between Missouri State University and Missouri University of Science and Technology for expansion of mechanical engineering programs and costs associated with the expansion. The program will increase the accessibility of engineering education in Missouri with particular emphasis in the Southwestern part of the state.

Department of Higher Education	HB Section(s): <u>3.147</u>
Program Name: <u>University of Missouri</u>	
Program is found in the following core budget(s): <u>MO University of Science & Technology and MO State University Engineering Expansion</u>	
<p>1a. What strategic priority does this program address? Increase mechanical engineer graduates in southwest Missouri</p> <p>1b. What does this program do? In 2008, Missouri University of Science and Technology (S&T) entered into a partnership with Missouri State University (MSU) to provide undergraduate degree programs in Civil Engineering and Electrical Engineering. In FY 17, MSU and Missouri S&T jointly requested and received an expansion of the partnership to deliver undergraduate Mechanical Engineering programs. \$2.0 million was appropriated with each institution receiving \$1.0 million, but extraordinary withholdings limited the funding to start this program. Appropriations for FY 18 were reduced to \$1.0 million total with each institution scheduled to receive half before withholdings of the full appropriation.</p> <p>When fully funded, this program will increase the accessibility of engineering education in Missouri and, in particular, the rapidly growing Southwestern part of the State. This growth is driven in part by expanding technology-based industry in the region which requires more engineering graduates. By leveraging the existing partnership between Missouri S&T and MSU, a significant increase in engineering degrees delivered in Springfield can be realized in a cost-effective manner.</p> <p>Staffing costs will be incurred by both institutions and distance education costs are part of S&T's budget. The engineering students on the MSU campus are S&T students, but receive non-engineering courses and student services at MSU. Once this infrastructure is solidified, the sustaining appropriation supports the personnel and distance education costs for the program as well as the student service costs.</p> <p>2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) Missouri University of Science and Technology is a component of the University of Missouri and falls under these statutes -Section 172.010 - 172.950, RSMo. Missouri State University is authorized in Section 174, RSMo.</p> <p>3. Are there federal matching requirements? If yes, please explain. No</p> <p>4. Is this a federally mandated program? If yes, please explain. No</p>

The core appropriation provides aid to community colleges. This request is a continuation of the community college base state aid appropriation consisting of general revenue and lottery funds totaling \$147,391,746. Included in this core is funding for maintenance and repair (M&R) purposes. In order to be eligible for state funds for maintenance and repair, local matching funds must be provided on a 50/50 state/local match rate. A separate Program Description is included for maintenance & repair.

Community College Appropriations

Program is found in the following core budget(s): Community College Appropriations

1a. What strategic priority does this program address?

Increase educational attainment and workforce preparedness

1b. What does this program do?

State Aid is allocated to each of the 12 public community college districts in the Missouri system according to a distribution model agreed upon by all Community Colleges and the Missouri Department of Higher Education. State aid supports community colleges in their mission to provide increased educational attainment, increase the availability of skilled workers, and to prepare students for transfer to four-year institutions.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 163.191.1, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Maintenance and repair (M&R) expenditures are not reflected in these totals; they are included in the M&R Program Description that follows.

*Net of expenditure restrictions

Community Colleges Maintenance and Repair

Program is found in the following core budget(s): Maintenance and Repair for Community Colleges

1a. What strategic priority does this program address?

Increases educational attainment and safety of students and staff

1b. What does this program do?

This allows for operating appropriations to be made available to community colleges for the cost of maintenance and repair of facilities and grounds, including surface parking areas, and purchases of equipment and furniture. Statute directs the Coordinating Board for Higher Education (CBHE) to provide reimbursement for specific maintenance, repair, and equipment projects at specific community college districts, in an amount of fifty percent of the cost of a given project as approved by the CBHE. Only salaries or portions of salaries paid which are directly related to approved projects may be included as eligible maintenance and repair match. Each community college must provide proof that a fifty percent share of the cost for maintenance and repair projects has been provided by the district.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 163.191.2, RSMo

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.		
<p>Section 143.786, RSMo</p> <p>Current appropriation authority for payment of income tax refunds set off against debt owed to Missouri's public community colleges by the taxpayer is \$2,556,000. MDHE anticipates increased growth in the amount of refunds intercepted and payable to the institutions which may possibly exceed the appropriation threshold for FY18 and FY19. As a result, the department is seeking \$250,000 in additional authority for continuation of this program.</p>		
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)		
<p>Based on a historical analysis of the amounts claimed by community colleges in prior fiscal years and the potential for growth in tax refunds intercepted and payable to institutions that may exceed current appropriation authority, the department has requested supplemental funds of \$250,000 for FY18, and this is a request for continuation of that same level of funding for FY19.</p>

Section 143.781, RSMo

Current appropriation authority for payment of income tax refunds set off against debt owed to Missouri State University (MSU) by state taxpayers is \$300,000. This threshold was exceeded in FY17, causing the excess to be paid from the FY18 debt offset appropriation. MSU anticipates increased growth in the amount of refunds intercepted and payable to the institution which may possibly exceed the appropriation threshold for FY18 and FY19. This, coupled with the lack of designation as an estimated appropriation for these purposes necessitates the need for additional appropriation authority to continue reimbursements to the institution.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Based on the overage from FY17 paid from the FY18 appropriation and the potential growth in the amount of refunds intercepted and payable to the institution for FY18 and FY19, MSU anticipates that \$50,000 will be sufficient to cover reimbursements to the institution. This is a continuation of the same level of increased authority for FY19 as the supplemental request for FY18.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

Department of Higher Education	HB Section(s): 3.225
Lincoln University Land Grant Match	
Program is found in the following core budget(s): State Aid to Four-year Institutions	
<p>1a. What strategic priority does this program address? Increase State land-grant match support</p> <p>1b. What does this program do? Lincoln University is an 1890 Land-Grant institution. The Code of Federal Regulations requires 1890 Land Grant Institutions such as Lincoln University to match 100% of the federal appropriations with state resources. These funds (federal and state) are to support research projects as well as various extension programs across the State of Missouri. Lincoln University Extension Office provides research-based educational programs to Missouri's hard to reach populations, socially vulnerable populations, many of whom are ethnic minorities, who slip through the safety net of educational and other services. Specifically, Extension serves areas such as St. Louis, Kansas City, Jefferson City, Southeast Missouri. The Research Department conducts a variety of research programs concentrating on essential subject areas which are relevant to Missouri residents.</p> <p>2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) This program is supported by federal appropriations based on the Second Morrill Act of 1890.</p> <p>3. Are there federal matching requirements? If yes, please explain. Yes, the Land-Grant appropriations require a 100% match; please reference CFR Title 7, part 3419. Within the definitions in section 3419.1, matching funds are defined as "cash contributions from non-Federal sources made available by the State to the eligible institutions".</p> <p>4. Is this a federally mandated program? If yes, please explain. Yes, According to the Code of Federal Regulations (CFR), Title 7, part 3419, 1890 Land-Grant institutions are subject to matching requirements. This regulation was enacted in 2000 with a match requirement of 30%, increasing each year to a 100% match requirement in 2007. The CFR allows institutions to apply for a waiver of 50%, but is based on three criteria: 1) Natural disaster, flood, fire, etc 2) State and/or institution facing a financial crisis or 3) Demonstration of good faith to obtain funds. While the institution has received waivers in the past, waivers are not guaranteed. Lincoln University is an 1890 Land-Grant Institution. It receives an annual allocation around \$7.1 million. Thus, we must adhere to the matching requirement as specified in the CFR.</p>

Federal Funds Returned

As referenced in the chart above, Lincoln University has had to return federal allocations, earmarked for Lincoln University and the State of Missouri, because the University has not received funding from the state as required in the CFR regulations. The university is required to match at 100% but can apply for a waiver. If the waiver is approved, the minimum match is 50%. If the institution cannot meet the minimum 50% match requirement, a portion of funds above that amount must be returned to USDA/NIFA and are reallocated to other Land Grant institutions outside of the state of Missouri. To ensure that all available resources are fully utilized in the state, additional matching funds must be allocated to Lincoln University.

The Federal Funds Returned chart is contingent upon approval of waiver requests.

PROGRAM DESCRIPTION	
Department of Higher Education Program Name: UMKC Neighborhood Initiative Program is found in the following core budget(s): University of Missouri - UMKC Neighborhood Initiative	HB Section(s): <u>3.256</u>
<p>1a. What strategic priority does this program address? Provides training and technical assistance to neighborhood leaders</p> <p>1b. What does this program do?</p> <p>The UMKC Center for Neighborhoods (CFN) in the Department of Architecture, Urban Planning and design provides research, training and data to volunteer neighborhood leaders in the Kansas City, Missouri Metropolitan area through technical assistance, capacity building, neighborhood planning services, legal aid and organizational assistance. This appropriation supports these efforts. The CFN works with city, county and state agencies to address issues that threaten the health, safety and welfare of neighborhoods and seeks to solve problems at the local level. The Center assists neighborhood leaders to work with local law enforcement to improve neighborhood safety and provides continuing education for leadership development. This program helps to reduce government costs in other areas and build resilience through collaborative problem-solving with neighborhood leaders, local businesses and university faculty. The Center provides space where leaders can access UMKC resources - including faculty, staff and students. Data about neighborhoods, leadership training and workshops with faculty and students are available. In addition, faculty and students benefit from these partnerships with opportunities for research and engaged teaching to meet the urban mission of UMKC.</p> <p>2. 7a. Provide an effectiveness measure.

The UMKC Center for Neighborhoods has developed and implemented curriculum for neighborhood leaders. The Center measures annually the number of participants trained through the programs and workshops. The Center has worked with more than 90 individual neighborhood leaders in Kansas City and Independence, Missouri. Of those, 92% of neighborhood leaders completed the training program.

Number of volunteer neighborhood leaders trained for action:	FY16 Actual	FY17 Actual	FY18 Base	FY18 Stretch*	FY19 Base	FY19 Stretch*

*Note: We would prefer to serve the "stretch" numbers of leaders but can not do so without full restoration of funding.

7b. Provide an efficiency measure.

The Center tracks the number of neighborhood organizations in good standing with the State during and after providing help. Of the 40 organizations that we have worked with, 97.5% are in good standing and only one is not yet in good standing. We are working with this group to address the issue.

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.260

Program Name: University of Missouri - St. Louis International Collaboration

Program is found in the following core budget(s): University of Missouri - St. Louis International Collaboration

1a. What strategic priority does this program address?

Increase economic development in the state

1b. What does this program do?

The purpose of this appropriation is to increase international collaboration and promote economic opportunity that helps attract and retain new economic activity to the St. Louis region. University of Missouri-St. Louis works with BioSTL, a regional nonprofit dedicated to advancing prosperity in St. Louis through the growth of biosciences and other targeted innovation clusters. The centerpiece of the program is the GlobalSTL program (formerly known as) St. Louis-Israel Innovation Connection, which connects the economies of St. Louis and targeted international locations (including Israel, Ireland, and other countries) with a robust pipeline that engages and links experienced professionals to identify international companies who are likely to be attracted by St. Louis' convergence of corporate, university, and entrepreneurial strengths. Specific business strategies will partner prospective international companies with St. Louis and Missouri resources that might lead to recruitment of a presence in St. Louis. BioSTL is providing matching funds.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 172.010 - 172.750, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

*Net of expenditure restriction

The Missouri Telehealth Network (MTN) gives patients in underserved areas access to University of Missouri Health Care specialists without leaving their communities. The network saves patients transportation, discomfort and emotional costs. While all states have at least one telehealth network, Missouri has one of the most developed telehealth networks in the country. The MTN started out with nine sites in 1994 and has since expanded to more than 200 sites in 56 Missouri counties. Besides providing access to excellent healthcare for patients, MTN provides a mechanism for clinical research, continuing education opportunities for healthcare providers, and homeland security efforts related to disaster preparedness. This request is for a core appropriation of \$437,640 from Other funds and \$1,500,000 from general revenue for the expanded Show-Me Extension for Community Healthcare Outcomes (ECHO).

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.265

Program Name: Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - Missouri Telehealth Network

1a. What strategic priority does this program support?

Increase the use of telehealth in Missouri to increase access and capacity of high-quality healthcare.

1b. What does this program do?

The Missouri Telehealth Network (MTN) exists to develop, study, and use telehealth solutions that improve access by providing high-value, patient-centered health care and medical education in Missouri. The Missouri Telehealth Network has members in more than 50 counties. Missouri Telehealth Network sites include hospitals, federally qualified health centers, rural health clinics, community mental health centers, and state facilities.

The Missouri Telehealth Network (MTN) exists:

1. to increase access to health care for underserved Missourians;
2. to provide specialty care to Missourians in state facilities, i.e., Division of Youth Services;
3. to serve as a resource (consultant) for health care institutions and providers who are embarking upon their own telehealth program;
4. to provide a mechanism for clinical research;
5. to provide continuing educational opportunities for health care providers; and
6. to replicate the ECHO (Extension for Community Healthcare Outcomes) model of telehealth for education and training of primary care providers and create regional centers of excellence.

Telehealth sites may be equipped with interactive videoconferencing equipment, teleradiology equipment or both. Sites with interactive video are typically equipped with document cameras, video scope systems and electronic stethoscopes as needed. Even though the physicians and patients are geographically separated, these interactive technologies allow for a sufficient examination of the patient in real time, not to mention that keeping services local helps the rural economy through greater utilization of pharmacies, laboratories, radiology departments, etc.

MTN began in 1994 as one of the nation's first public-private partnerships in telehealth. A 9-site network was initially developed with federal support coming from the Health Resources and Services Administration's Office and private support coming from telecommunication companies, as well as each telehealth site. More recently, funding for the Missouri Telehealth Network has been provided from the University of Missouri Health Care and the State of Missouri. Also, the Missouri Telehealth Network site network charges are funded by MTN members.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

MTN is a component of the University of Missouri Healthcare and falls under these statutes Section 172.810 - 172.830, RSMo.

3. Are there federal matching requirements? If yes, please explain.

No federal matching requirements.

4. Is this a federally mandated program? If yes, please explain.

This is not a federally mandated program.

Other appropriated funds are from Healthy Families Trust Fund. In addition, other funds to support the Telehealth mission are provided by University of Missouri Health Care, and federal, state, and other agency grants.

7a. Provide an effectiveness measure.

Measure: Number of telepsychiatry visits in Division of Youth Services locations

Base target: 1,923 visits based on FY17 actuals

Stretch target: 2,500 visits

Between July, 2015, and June, 2016, 1,923 child psychiatry telehealth visits between providers at the University of Missouri and thirteen Division of Youth Services locations took place. These telepsychiatry visits replaced in-person child psychiatry visits in which the patients, in many cases, would be in handcuffs were avoided.

Burrell Behavioral Health and Pathways Community Behavioral Health are cost saving examples through the use of telepsychiatry. Pathways reports providing the equivalent of 60 days of telepsychiatry provider time per week. Telehealth provides a reduction in windshield time. This windshield time reflects time that the psychiatrists would lose seeing patients if it weren't for the use of telepsychiatry. The reduction of windshield time from the use of telepsychiatry results in an annual overall savings of approximately \$1,508,000/year to Burrell Behavioral Health and Pathways Community Behavioral Health.</p>

7d. Provide a customer satisfaction measure, if available.

Measure: Customer satisfaction in Continuing Medical Education Credits (CME) Survey

Base target: February FY 2017 results shown below from the Impact Asthma ECHO surveyStretch: 100 strongly agree; all ECHOs for the yearly time period will be looked at

Satisfaction data was collected using an evaluation form from the CME and ECHO presentations during FY 2017 of those utilizing the telehealth equipment. This is a sample of the survey from February, 2017 Impact Asthma ECHO.

Comments from rural providers about the telehealth and ECHO services were favorable. Some specific phrases used by rural providers include: "The program was well planned and proceeded smoothly. The case presentations were interesting and very beneficial." "Thank you for doing this!" "I look forward to this every Friday and am grateful that it exists. What a great resource!" "Thank You! I have learned a great deal and look forward to continued participation."

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.265

Program Name: Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - Extension for Community Healthcare Outcomes

1a. What strategic priority does this program address?

Enhance health care in rural Missouri

1b. What does this program do?

Show-Me Extension for Community Healthcare Outcomes (ECHO) provides comprehensive, best-practice care to patients with complex health conditions, in their local community. Show-Me ECHO facilitates collaboration between specialty and primary care that expands access to best-practice medical care across Missouri. It links expert specialist teams at an academic 'hub' with primary care clinicians in local communities – the 'spokes' of the model. Together, they participate in regularly scheduled Show-Me ECHO clinics, which are virtual grand rounds, combined with mentoring and patient case presentations and discussions.

Show-Me ECHO uses videoconferencing to connect a group of community providers to an interdisciplinary group of specialists around a specific disease state or condition. The community providers learn about the disease state or condition and with the mentorship of the specialists, they become a regional center of excellence that can help provide specialty care to patients who might not otherwise be able to receive care. Whereas telemedicine increases access to specialty care, but does not increase capacity of specialty care, Show-Me ECHO increases the number of providers who will treat complex conditions, it creates relationships between specialists and community providers so that patients with chronic conditions can stay in their community for care without being referred to specialists.

Show-Me ECHO is a replication of the Project ECHO program developed at the University of New Mexico. Project ECHO is a lifelong learning and guided practice model that revolutionizes medical education and exponentially increases workforce capacity to provide best-practice specialty care and reduce health disparities. FY2016 was the first year funds were received. An increase from \$1.5 million to \$3.0 million was received in FY2017 but the increase was withheld as an extraordinary withholding. The additional funding will provide new ECHO opportunities areas of high need and high potential for state cost reductions. The areas being considered are: High-Risk Obstetrics, Adult Behavioral Health, Pediatric Sleep Disorders, Post-Acute Care/Care Transitions, Resistant Hypertension and Congestive Heart Failure, Parkinson's and other movement disorders, expansion of the Asthma ECHO, and others.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

7a. Provide an effectiveness measure.

Measure: Reduced in-patient hospital days and emergency department visits by children with asthma in counties where Asthma ECHO & Education has taken place

Base target: \$4.0 million in cost savings

Stretch target: \$4.5 million in cost savings

Show-Me ECHO increases access to health care, specialty services by training and educating primary care providers in common, complex, costly, and chronic conditions. To calculate the preliminary cost effectiveness information of Impact Asthma ECHO and possible averted costs regarding decreases in hospital days and emergency department (ED) visits, we used the average asthma ED visit costs of \$629 and average asthma inpatient cost of \$2,439 provided by the Missouri Department of Social Services. The total amount of averted costs in participating 29 counties is \$4,159,195. These are preliminary numbers only. More robust analyses are underway.

The chart below depicts the Show-Me ECHO data on the number of primary care providers engaged, number of Continuing Medical Education (CMEs) Credits awarded, and number of cases discussed at each ECHO clinic. Because ECHO is a training and education program, the more participation the more best-practice dissemination occurs. The plan is to grow participation and expand the complex disease states or conditions that are addressed with the expansion of funding.

2. CORE DESCRIPTION											
<p>The Spinal Cord Injury (SCI) fund, established by HB 302 (2001), supports research in Missouri in the area of spinal cord injuries and congenital or acquired disease processes. Congenital spinal cord abnormalities, such as spinal bifida, include birth defects affecting the spinal cord. In addition to traumatic injuries to the spinal cord that lead to paralysis, acquired abnormalities could include Friedreich's ataxia, which manifests itself in teenage years and appears to run in families, as well as paralysis due to multiple sclerosis, polio, etc. This funding is used for research awards, consistent with authorizing legislation, to investigators affiliated with a public or private educational, health care, voluntary health association or research institution.</p> <p>As outlined in the core reconciliation (#5), a core reduction of one-time funding for this program has been processed.</p>

The Spinal Cord Injury Fund Program (SCI) was established in FY02. During FY02 potential members of an SCI Advisory Board were identified, nominated, and approved by the University of Missouri Board of Curators. In FY03 the Advisory Board developed a list of organizations and institutions conducting spinal cord injury and treatment research. The Board then released a Call for Proposal and developed a web page to assist applicants in preparing proposals. The program's success will depend on the number of proposals that are awarded each year.

PROGRAM DESCRIPTION

Department of Higher Education Program Name: Missouri Kidney Program Program is found in the following core budget(s): University of Missouri - Missouri Kidney Program	HB Section(s): <u>3.275</u>
---	-----------------------------

1a. What strategic priority does this program address?
 Provides supportive resources to low income Missourians with end stage renal disease (ESRD)

1b. What does this program do?

- The program is designed to serve eligible Missourians with ESRD, as a program of last resort. It helps pay a portion of life-saving medications, private insurance premiums, travel for dialysis, and transplant assistance.
- Kidney disease disproportionately affects older, minority and low income individuals. The program's caseload is 56% African American (1 in 6 African Americans have kidney disease), and mostly between the ages of forty-nine to sixty-nine.
- The program uses its expertise in Medicare coverage specific to ESRD to maximize the federal benefits available to eligible Missourians, and avoid unnecessary expenditure of state healthcare dollars.
- Through a competitively bid contract with a Missouri pharmacy, the program reduces costs and increases access to necessary medications for eligible patients with ESRD and kidney transplant recipients.
- Participants served meet residency, citizenship, medical condition and financial eligibility.
- The program contracts with 170 certified renal dialysis and 9 transplant facilities around Missouri, to identify and refer potentially eligible patients to the program.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 Section 172.875, RSMo

3. Are there federal matching requirements? If yes, please explain.
 No

4. Is this a federally mandated program? If yes, please explain.
 No

7a. Provide an effectiveness measure.

Measure: Increase participation rates in rural counties.

- According to the Census Bureau - 30.6% of the population is classified as living in rural areas.
- Currently, 15% of program participants are classified as rural by their zip code.
- We receive referrals from our contracted entities and from the healthcare community. In order to serve more rural eligible Missourians, we need to target our rural contractors and providers.

Base Target: Maintain the 15% of program population from rural counties.Stretch Target: Increase participation from rural counties to 25% by FY18.**** See Chart on Next Page****

7b. Provide an efficiency measure.

Measure: Keep costs for the program's drug assistance under 5% of the actual costs of medications.

• The program's largest expenditure is the Centralized Drug Program which supplies medications to enrolled MoKP participants statewide through mail order. This no-cost competitively bid contract with a Missouri Pharmacy results in significant discounts on brand and generic medications, and dispensing and mailing fees that would otherwise be incurred by low income patients with ESRD. MoKP is payer of last resort for participants whose medications are not covered by any type of insurance, for instance when they first enroll in the program or during gaps before they qualify for Medicare. The program pays co-pays for formulary medications for all participants enrolled in this program under MoKP. MoKP staff work with individual participants to ensure that they are enrolled in and maximizing the benefits from federal (Medicare) and private assistance programs (through pharmaceutical companies), ultimately reducing the reliance on the state's Medicaid program and on the MoKP funds. The program's cost for medication assistance has consistently been under 5% compared to the actual cost of the medications covered because of the competitive contract and ensuring participants are in the best plan based on their medications.

Base Target: 5% or less of the actual drug costs paid by the program.

Stretch Target: Given the rising costs of pharmaceuticals, continue to stay below 5% of the actual drug costs for participants enrolled in the Centralized Drug program. Assuming participation continues to increase.

7c. Provide the number of clients/individuals served, if applicable.

Measure: Maintain a low administrative cost while increasing the number of eligible Missourians served by the program.

● MoKP relies on dialysis centers, social workers, nephrologists, and transplant centers to refer patients to the program to determine eligibility. There are approximately 13,000 Missourians with ESRD and kidney transplant recipients. We do not know how many of the patients would meet the income eligibility for the program.

● MoKP has a very small staff to participant ratio. The average tenure of the staff is 10 years. The specialized expertise of the staff allows the staff to handle an average caseload of 290 participants, keeping administrative costs low.

Base Target: Maintain the low administrative costs at 18%, while increasing the number of participants by 50.

Stretch Target: Increase participants by 100, through enhanced education and outreach to referral sources, particularly in rural Missouri.

7d. Provide a customer satisfaction measure, if available.

Measure: Improve program effectiveness using feedback from well-designed, well-executed surveys of participants and contracted entities.

- MoKP has used a patient satisfaction questionnaire for more than 15 years. Each month participants in the program are randomly selected to receive the questionnaire. It is mailed to the participant along with a stamped self-addressed envelope for return of the completed questionnaire. The program receives consistently high satisfaction comments from participants.
- For SFY 18, we propose to update the patient survey to better capture qualitative and quantitative satisfaction in order to assess the program's impact on participant's health status related to their ESRD or transplant, their utilization of the program and the effectiveness of the program. We propose to test a survey instrument with some of our contracted entities (179 TOTAL) - dialysis centers and transplant centers, and the program's contracted pharmacy provider (1) to evaluate their understanding of the program, the effectiveness of the referral system, barriers to participation and compliance.

Base Target: 15% response rate for the newly-designed surveys.

Stretch Target: 40% response rate from the contracted entities survey and 30% response rate from participants.

PROGRAM DESCRIPTION

Department of Higher Education Program Name: Division of Four-year Colleges and Universities Program is found in the following core budget(s): University of Missouri - State Historical Society	HB Section(s): 3.280
--	----------------------

1a. What strategic priority does this program address?
 Preserve and promote Missouri history

1b. What does this program do?
 The State Historical Society of Missouri is the premier research center for the study of Missouri state and local history. The Society preserves Missouri history by collecting art, manuscripts, newspapers, photographs, and oral history collections. Public access to the collections is through research centers in Columbia, Kansas City, St. Louis, Rolla, Springfield, and Cape Girardeau located on the University of Missouri, Missouri State University, and Southeast Missouri State University campuses. Patrons include students from elementary school through graduate school, historians, genealogists, government staff, and members of the public.

The Society promotes Missouri history by publishing Missouri history and research through a scholarly journal, the Missouri Historical Review, a newsletter, books, websites, and through social media. The Society is the sponsor for National History Day in Missouri educating Missouri students in grades 6-12 to research historical topics. The Society also provides public programming to promote Missouri history through art exhibitions, workshops, tours, and lectures.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 Section 183.010 - 183.030, RSMo

3. Are there federal matching requirements? If yes, please explain.
 No

4. Is this a federally mandated program? If yes, please explain.
 No

PROGRAM DESCRIPTION

Department of Higher Education

HB Section(s): 3.285, 3.290

Program Name: Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - State Seminary Fund

1a. What strategic priority does this program address?

Provide scholarships and operating funds from dedicated fund source

1b. What does this program do?

This program provides income for the general operation of University of Missouri College of Agriculture and School of Mines and Metallurgy and for three scholarships that the Curators added to the Seminary Fund in 1909. Funding for the investments that distribute to Agriculture and Mines & Metallurgy were derived from four sources - the First and Second Morrill Acts of 1862 which granted acreage to fund "at least one college to teach agriculture and mechanical arts", US Congressional reimbursement to the state of Missouri for subsisting troops during the Civil War, and fees from the sale or lease of railway equipment in 1895. Funding for the scholarships was from gifts/bequests to the university and per Board of Curators decision these were added to the Seminary Fund. Per state statute the Seminary monies belong to the university but the state must hold the securities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

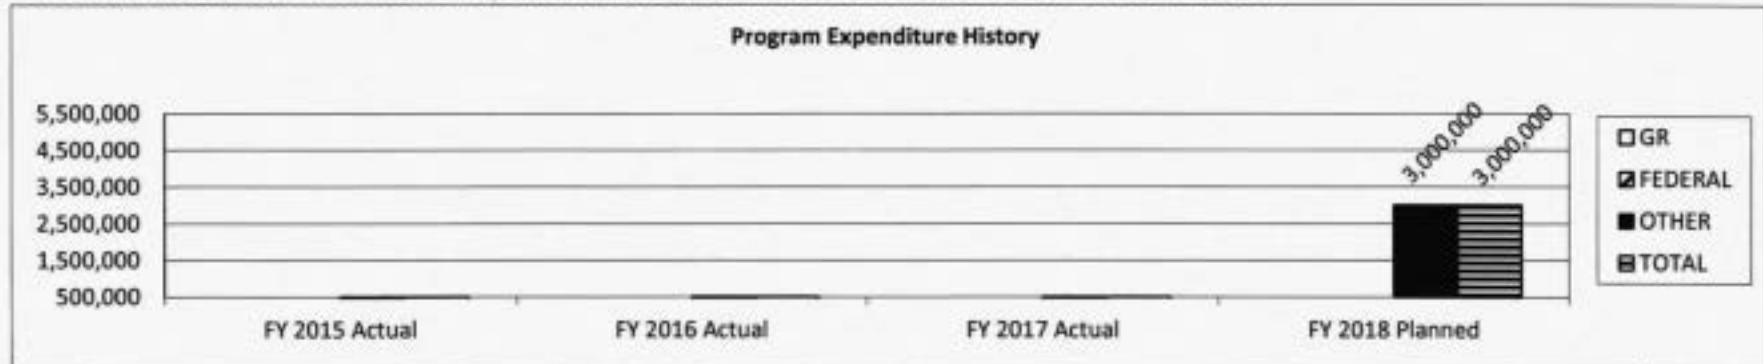

Section 172.610, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The expenditures in the graph above represent investments made by the university. As the investment instruments mature, the university requisitions funds appropriated by the General Assembly for re-investment of investment instruments. There were no maturities in FY2015 and FY2016. This appropriation was not used for the FY2017 maturity. The State Treasurer purchased the investment instruments.
